**NOVEDADES V.2**

## Presentación

Cuando innovar también es crecer. Cuando sorprender también es asentarse. Cuando el producto y el servicio van de la mano. Cuando nos quedamos con lo que mejor sabemos hacer y nos atrevemos con lo que nunca hemos hecho. O cuando creamos pensando lo más avanzado y, al mismo tiempo, en la herencia de una industria milenaria. Así, con crecimiento, innovación, consolidación, diseño y empatía llegamos a un catálogo de novedades que, más que una recopilación de lanzamientos, es una demostración de madurez de Cifre Cerámica. Este es el catálogo de una empresa asentada, fiable, con una base de clientes sólida que nos permite arriesgarnos para ofrecer siempre lo último, pero sin dejar de ofrecer nunca esas colecciones que nos han hecho grandes.

**Por eso 2019 llega lleno de color.**

En Cifre Cerámica somos unos enamorados de nuestro material y por eso lo multiplicamos con Brick & More, la pequeña gran colección de formatos reducidos y posibilidades infinitas. Más color, más texturas y más novedades para una de nuestras colecciones estrella. Y junto con el color, la elegante sobriedad del mármol, un material que da mucho más de sí cuando se convierte en cerámica y puede llegar donde antes no había llegado.

## Presentation

*When innovation brings growth. When surprising is also to settle down. When product and service go hand in hand. When we stay with what we do best and we dare with what we have never done. Or when we create thinking the most advanced and, at the same time, in the heritage of a millenary industry. Thus, with growth, innovation, consolidation, design and empathy we arrive at a catalogue of novelties which, more than a compilation of launches, is a demonstration of Cifre Cerámica's maturity. This is the catalogue of a well-established, reliable company with a solid customer base that allows us to take risks to always offer the latest, but without ever ceasing to offer those collections that have made us great.*

**That's why 2019 comes full of colour.**

*At Cifre Cerámica we are in love with our material and that is why we are multiplying it with Brick & More, the small large collection of reduced formats and infinite possibilities. More colour, more textures and more novelties for one of our star collections. And together with colour, the elegant sobriety of marble, a material that gives much more of itself when it becomes ceramics and can reach where it had not reached before.*

## Escala de destonificación.

¿Que significa V1, V2, V3, V4 ?

La variación de tono o destonificación es inherente a todos los productos cerámicos. La destonificación y textura puede variar significativamente de una pieza a otra por el proceso de fabricación.

El tono V1 de destonificación tiene poco o casi ningún cambio respecto de una pieza a otra y el tono V4 tiene una gran destonificación o variación de color y/o cambio de textura de una pieza a otra.

Antes de cualquier colocación de azulejos debería comprobarse y ser aprobada por los clientes dicha variación.

No se admiten reclamaciones por textura o destonificación después de la instalación del material.

Por favor tenga en cuenta que los colores y destonificaciones pueden cambiar mucho, si usted realiza la comprobación en un monitor de ordenador.

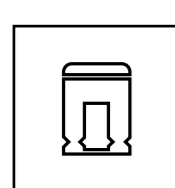

Compruebe el material con una pieza física antes de realizar la decisión final o compra.

## Esquema de colocación...

La colocación de este material tiene que ser SIEMPRE en espiga o colocación a 1/3, NUNCA colocarlo en paralelo o a 1/2 pieza..

**SOLO PARA LAS MADERAS  
NO RECTIFICADAS**

**qr code**

Lee el qr y te mostrará nuestro video explicativa del sistema de nivelación.  
Read the qr and it will show you our video explaining the levelling system.

## Muy importante...

Para una perfecta colocación recomendamos nuestro sistema de nivelación.

No se atenderá reclamaciones de curvatura en material colocado si no se ha utilizado nuestro sistema de nivelación o similar..

## Shade variation program scale.

What does V1, V2, V3, V4 mean?

Shade variation is inherent in all tile products, including man-made tiles such as porcelain, glass&ceramic. Shade and texture will vary significantly from piece to piece to within production runs.

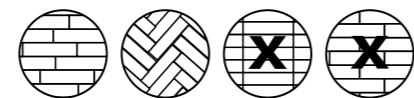

V1 shade variation has little or no change from piece to piece where a V4 will have a large variety of color and/or texture changes.

Prior to any installation, range of tiles should be approved by the customers.

No claims for shade or texture variation will be honored after installation.

Please note shades of colours are seen differently on computer monitors and therefore customers should request a sample before making a final selection or purchase.

Check the material with a physical part before making the final decision or purchase.

## Installation layout...

The laying out of this material must be always in Brickbone way or laid out to one third but NEVER laid out in paralel or half piece.

**ONLY FOR WOOD TEXTURES MODELS  
NON RECTIFIED**

## Very important..

For perfect installation finished we recommend our levelling system.

We will not accept any complaint if the material has not been installed with our levelling system or a similar one.
