LIGHTING UP YOUR INTERIORS

The lighting plan is an essential part on any interior design project.

Beyond pure functionality, lighting brings us atmosphere, decorative interest and perhaps even a bit of intrigue.

LIGHTING UP YOUR INTERIORS

Whereas technical products are always essential to illuminate our spaces, our decorative lighting collection allows you to create different moods depending on the time of day.

Our range brings together different forms, textures, and materials to add visual interest, various layers and artistic elements to your space.

LIGHTING AS SCULPTURE

Luxury is having beautiful everyday objects that feel like art. Why can't a lamp also be a sculpture?

LIGHTING FOR THE RIGHT MOOD

Integrating elements that beautifully colour your space is key. Dimmable suspension lamps can accompany sconces, as well as floor and table lamps to make your ideal combination.

THAT PERFECT TOUCH OF GOLD

What can we say? We love gold in all its forms. In a lighting plan, it is always the perfect touch.
