**BOTANIC
TALE**

un racconto di luce, naturalezza ed emozione
a tale about light, natural beauty and emotion

BOTANIC TALE

Sensazioni primordiali tra realtà e fantasia *Primordial sensations where reality meets imagination*

Nel respiro lieve della natura si nascondono trame che l'anima trattiene e l'ingegno rielabora per catturarne le regole e sovvertirle attraverso nuove forme e materiali, con l'ausilio della creatività e della fantasia, della tradizione artistica e della tecnologia. Il mosaico è anche questo: un'arte antica e moderna al tempo stesso, paziente e silente, che racconta, secondo nuovi codici estetici, una natura sublimata in composizioni ricche e preziose, per accompagnare con grazia e armonia il nostro abitare. La natura può essere raccontata in tanti modi, attraverso storie che ne descrivono i suoi "tratti" più significativi, le sue forme a volte bizzarre, i rimandi a un mondo immaginifico, a sensazioni primordiali, a giochi di colore e sfumature che parlano di luce, naturalezza, emozione.

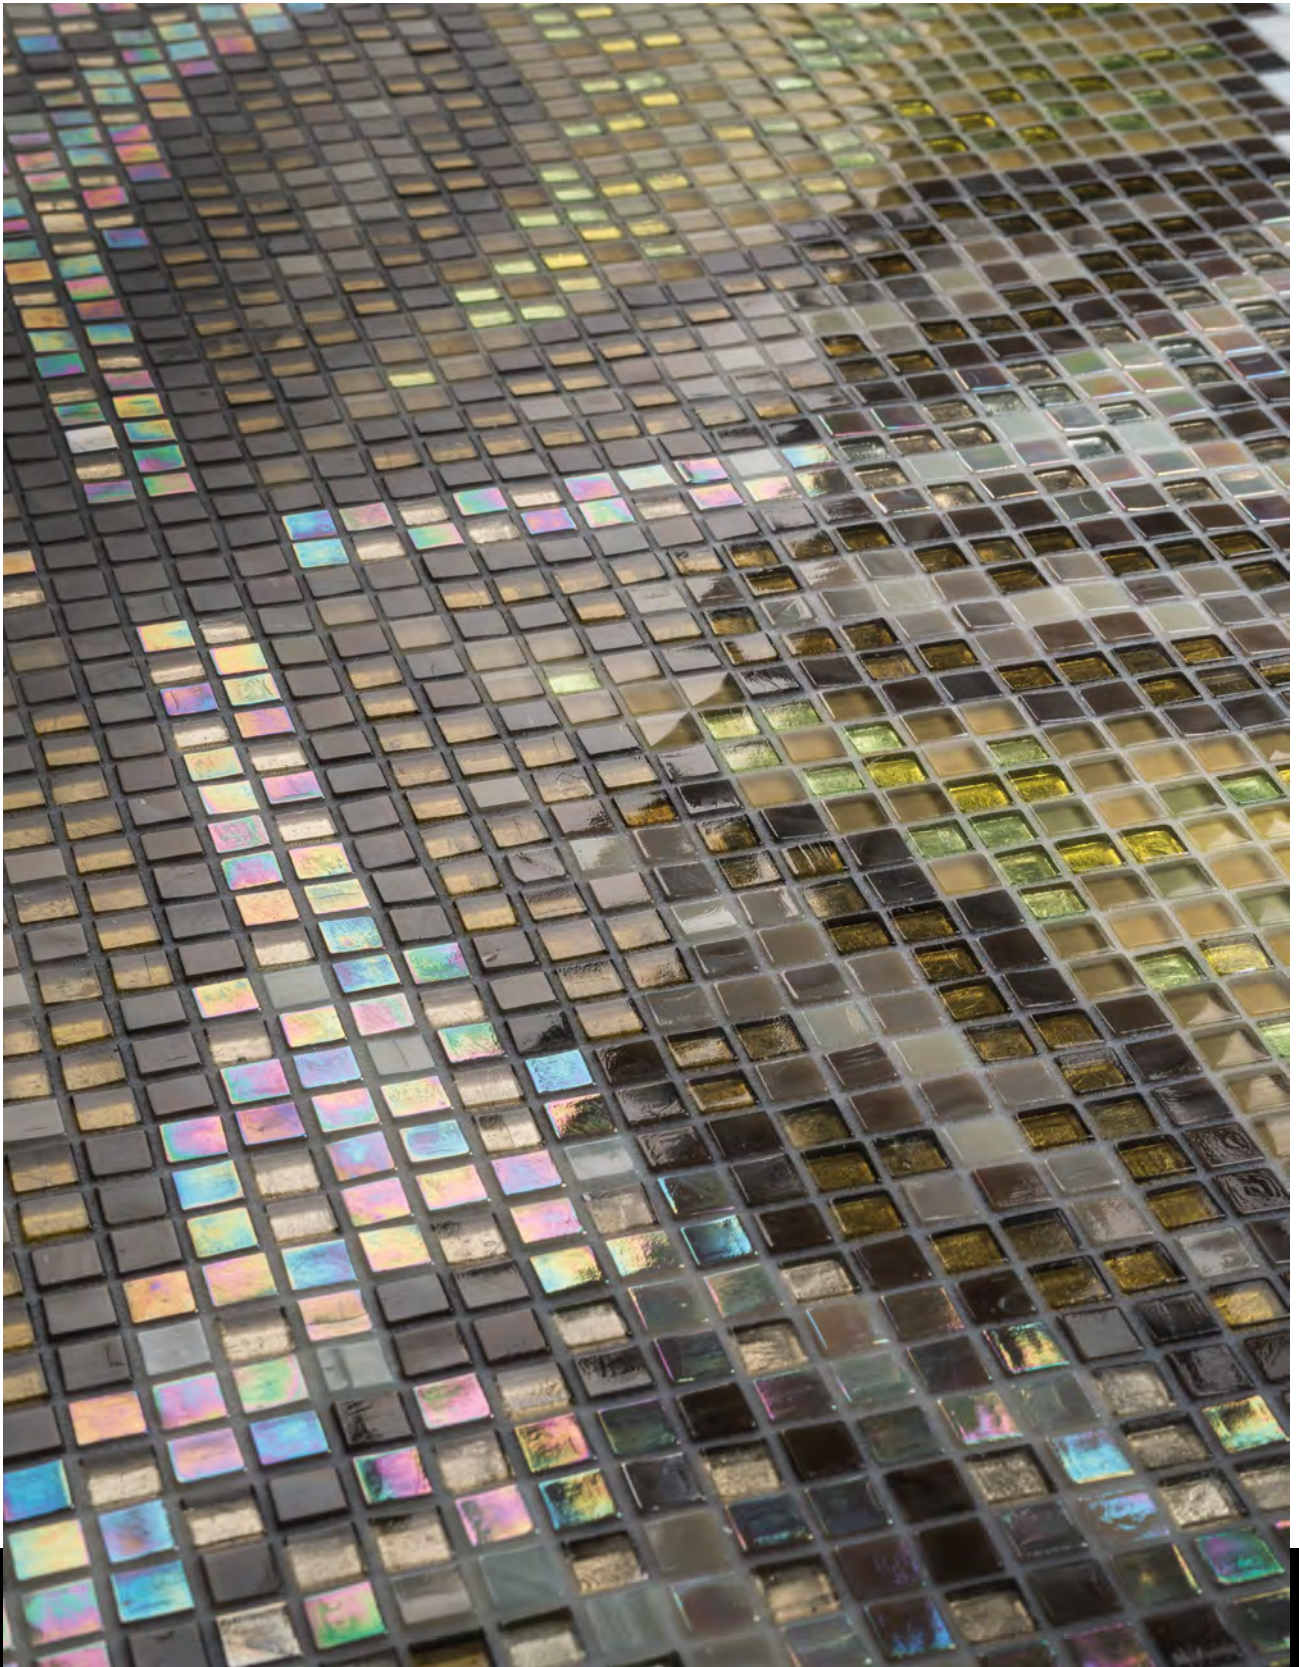

Botanic Tale raccoglie una collezione di mosaici con pattern modulari e miscele composte da tessere in formato 10x10 mm, in un'originale interpretazione delle forme e dei colori di un giardino botanico immaginifico, a metà tra realtà e fantasia.

Superfici a base di smalti e vetri con diversi livelli di trasparenza e iridescenza si intrecciano e si mescolano per creare motivi decorativi stilizzati, dalle mutevoli sfumature, miscelando luce e colore. Il mosaico stesso, un materiale ecologico e sostenibile, a base di polveri e minerali di origine naturale, diventa parte consapevole e attenta di un progetto che parla di natura, rispettandola nella sua più profonda identità.

The delicate breath of nature conceals tales captured by the soul and reworked by ingenuity, in a process that first identifies its rules and then subverts them using new forms and materials, with the aid of creativity and imagination, artistic tradition and technology. This is one definition of mosaic: an art which is both ancient and modern, patient and silent, which uses fresh aesthetic codes to express natural beauty sublimated into rich, exquisite compositions, a graceful, attractive accompaniment to our daily lives. Nature can be recounted in many different ways, through tales that describe its most significant traits, its sometimes bizarre shapes and its allusions to a world of boundless images, primordial sensations, and colours and variable shades steeped in light, natural loveliness and emotion.

Botanic Tale is a collection of mosaics with modular patterns, able to adapt to surfaces of all sizes, and mixes of chips in the 10x10 mm size, in an original interpretation of the shapes and colours of an image-rich botanical garden, where reality and imagination meet.

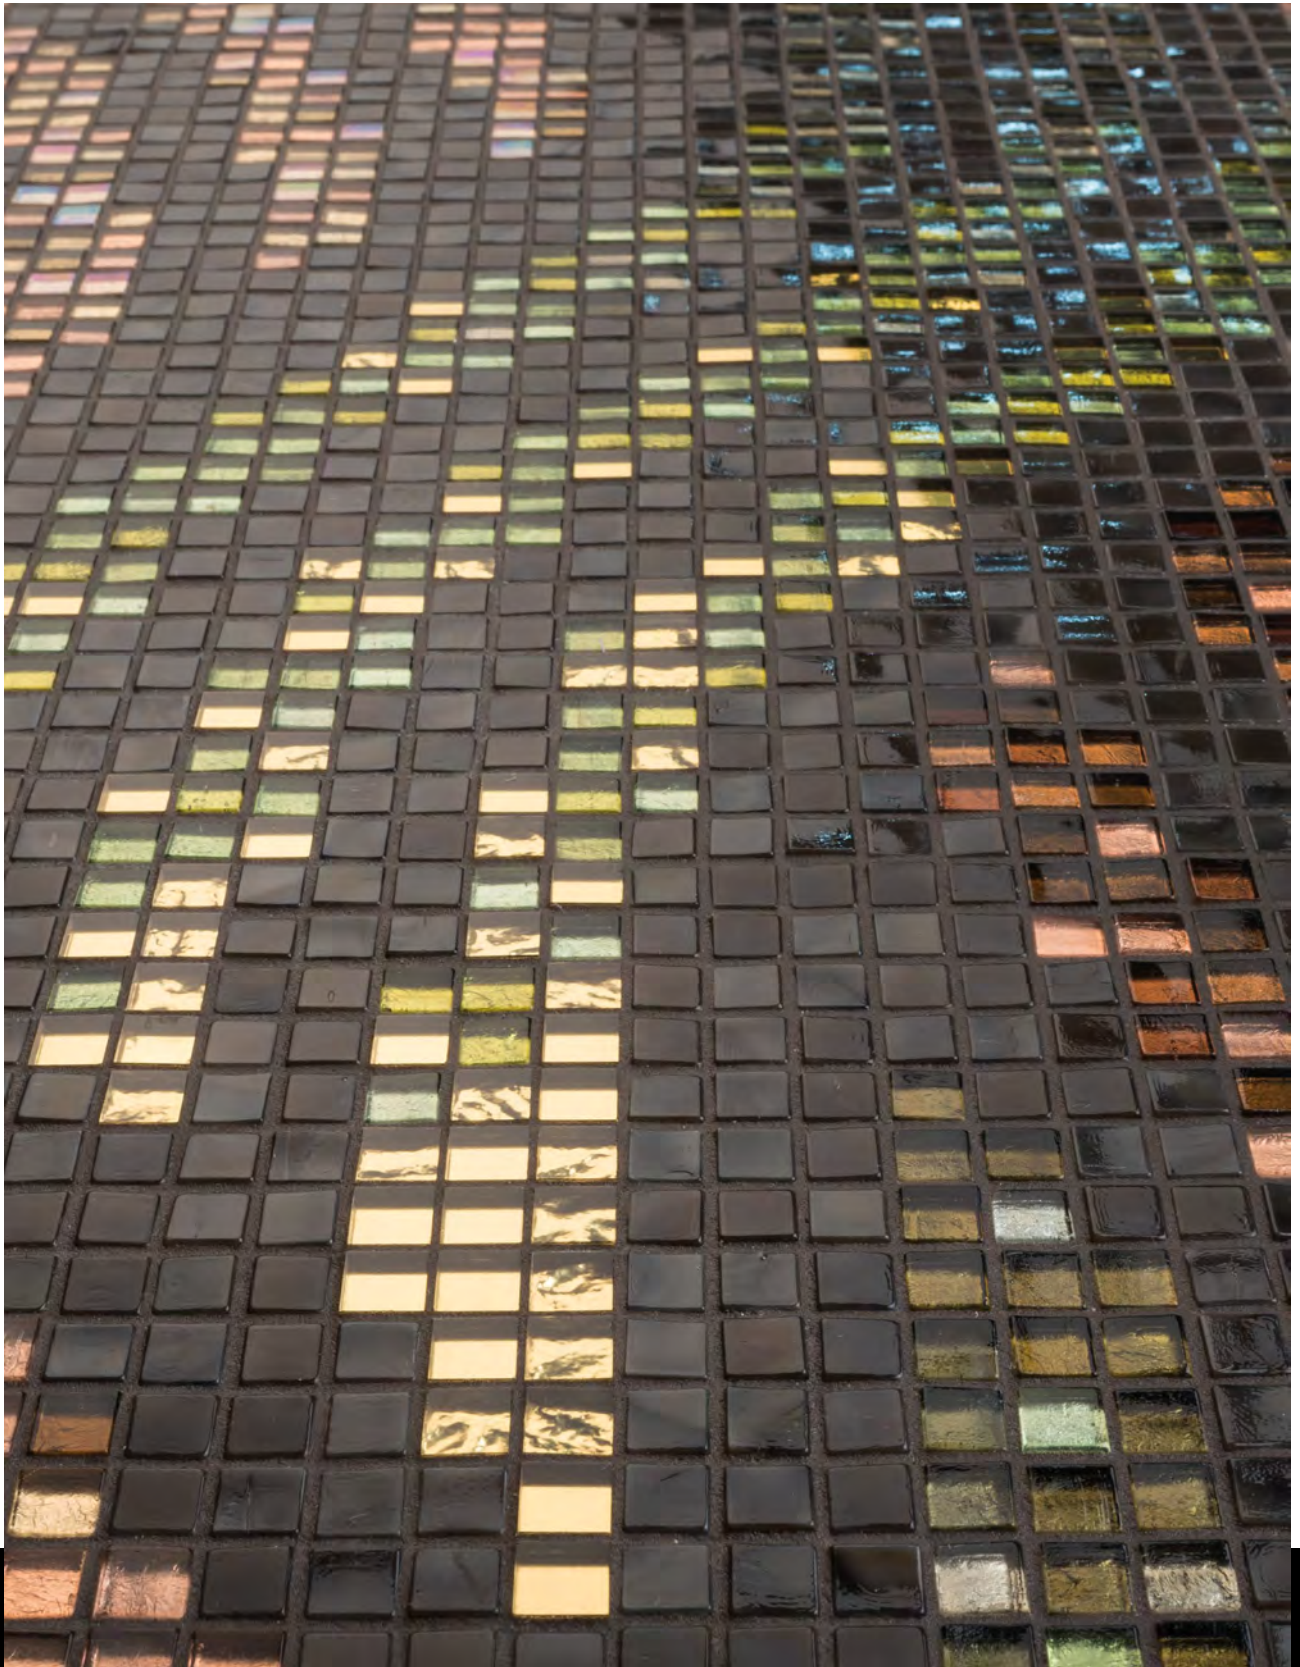

Surfaces created with glazes and glasses with different levels of transparency and iridescence interweave and combine to create stylised decorative motifs with constantly varying shades, a blend of light and colour. The mosaic itself, an environment-friendly, sustainable material made from natural powders and minerals, becomes an intelligent part of a project built around nature, with respect for its most profound identity.

5 materie e 257 colori trasformano il mosaico in una tavolozza su misura per i tuoi progetti

5 materials and 257 colours
transform mosaic into a made-to-measure palette for your projects

Innovazione nella forma e nella scelta dei materiali, varietà e ampiezza di gamma caratterizzano un'offerta allargata e trasversale. Tutte le collezioni garantiscono la massima versatilità di utilizzo e in molti casi sono pensate per dialogare tra loro, diventando un abaco multiforme da cui attingere per creare progetti personalizzati, destinati a spazi residenziali e commerciali. Il mosaico esprime un'energia creativa nuova, che si realizza attraverso una libertà compositiva organizzata e modulare, in linea con la filosofia di Mosaico+: offrire singole materie, e colori per guidare con esperienza il processo di realizzazione di un prodotto "su misura".

Innovation in form and in the choice of materials, as well as a wide variety and extension of range, characterise the products we offer. All of the collections guarantee the utmost versatility and, in many cases, are preconceived to be mixed and matched, becoming a multifaceted matrix that inspires the creation of personalised projects for residential and commercial interiors. Mosaic expresses a new creative energy given concrete form through a structured, modular compositional freedom, in line with the Mosaico+ philosophy of offering single materials and colours, using its experience to guide the process for realisation of "made-to-measure" products.

idee e tecnica: tutti gli strumenti per un mosaico personalizzato

ideas and techniques:
all the tools to create a made-to-measure mosaic

Presso la Divisione Progetti di Carpacco (UD), punto strategico della cultura e della tradizione del mosaico italiano, si realizzano tutte le composizioni personalizzate su richiesta del cliente, i progetti speciali e l'assemblaggio dei mosaici in gamma, lavorati a mano con una competenza ed un'eccellenza artigianale. Mosaico+ offre tutta la sua esperienza per assistere i propri clienti nello sviluppo delle diverse fasi del progetto, con un servizio capillare di assistenza pre e post vendita che comprende: consulenza estetica e tecnica per la scelta dei materiali e dei formati più idonei, analisi della modularità o del soggetto da rappresentare, assistenza e supervisione tecnica in fase di posa.

The Projects Division in Carpacco (Udine), a strategic point for the culture and tradition of Italian mosaics, is where all the customised client compositions, special projects, and the assembly of mosaics are done by hand, thanks to the finely honed skills of master craftsmen. Mosaico+ makes all its experience available to its customers to assist them in the development of the various phases of their projects, with a before and after-sales service comprising design and technical advice for the choice of the most suitable materials and sizes, analysis of the modular layout or the subject to be portrayed, and technical assistance and supervision during installation.

Capitolati tecnici / Technical specifications

VETRINA

Mosaico di vetro float composto da tessere quadrate non perfettamente ortogonali, di spessore 4 mm, nel formato 10x10 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di circa 0,9 mm. La forma volumetrica a parallelepipedo delle tessere, non perfettamente ortogonale rispetto alla superficie, può comportare, a posa ultimata a seconda delle condizioni di luce, riflessi e/o ombreggiature che, per la forma stessa della tessera, della sua lucidità e della sua profondità, sono da considerarsi caratteristiche tecniche ed estetiche del prodotto.

Float glass mosaic consisting of square chips 4 mm thick, not perfectly right-angled, in size 10x10 mm, mounted on fibre glass mesh to form a sheet of 327x327 mm in which the chips are about 0.9 mm apart. The chips' parallelepiped three-dimensional form is not perfectly right-angled, so that the surface of the chip is not necessarily perfectly parallel to the substrate. Therefore, after laying in some lighting conditions bright reflections and/or areas of shade may occur; in view of the chip's shape, shine and depth, these features are intrinsic to the product's technical and appearance characteristics.

CONCERTO

Mosaico di vetro fuso composto da smalto generalmente opaco, fatto da tessere quadrate non regolari, di spessore 4 mm, nel formato 10x10 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di 0,9 mm circa. Tale misura può variare a causa dell'irregolarità della tessera. Caratteristica del prodotto è la non uniformità e omogeneità dello smalto, la superficie non perfettamente piana e la dimensione delle tessere non regolare dovuta al particolare processo produttivo.

Fused glass mosaic consisting of generally matt glaze, consisting of chips 4 mm thick with an irregular square shape, in size 10x10 mm, mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 0.9 mm apart. This gap may vary due to the chip's irregular shape. This product's distinctive features include the unevenness of its glaze and surface and the irregular chip size, which derives from the specific production process used.

PERLE

Mosaico di vetro fuso composto da smalto con iridescenza in superficie, fatto da tessere quadrate non regolari, di spessore 4 mm, nel formato 10x10 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di 0,9 mm circa. Tale misura può variare a causa dell'irregolarità della tessera. Caratteristica del prodotto è la non uniformità e omogeneità della superficie non perfettamente piana e la dimensione delle tessere non regolare.

Fused glass mosaic consisting of glaze with surface iridescence, consisting of chips 4 mm thick with an irregular square shape, in size 10x10 mm, mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 0.9 mm apart. This gap may vary due to the chip's irregular shape. Its uneven surface is one of this product's key characteristics and the irregular chip shape.

DORO

Mosaico in vetro e oro composto da tessere quadrate non perfettamente ortogonali, di spessore 4 mm, nel formato 10x10 mm, al quale è applicata una foglia d'oro a 24K. Le tessere sono montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di 0,9 mm circa. La collezione Doro è disponibile in 2 finiture chiamate: "A Pavimento" e "A Rivestimento". Nella finitura "A Pavimento" la foglia d'oro posta sul fondo, dona al mosaico un particolare effetto di profondità. Nella finitura "a Rivestimento" la foglia d'oro rimane in superficie per un risultato più compatto e materico.

Glass and gold mosaic consisting of square chips 4 mm thick, not perfectly right-angled, in size 10x10, with a 24 carat gold foil applied. The chips are mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 0.9 mm apart. The Doro collection is available in 2 finishes, "A Pavimento" and "A Rivestimento". In the "A Pavimento" finish, the gold foil applied to the back, gives the mosaic a striking effect of depth. In the "A Rivestimento" finish, the gold foil is left on the surface, for a more compact, tactile look.

METAL

Mosaico in vetro fuso con diverse caratteristiche. Le tessere, a volte colorate, altre trasparenti, possono presentare o meno iridescenza in superficie. L'iridescenza è data da una glossatura eseguita a caldo. La collezione Metal è costituita da tessere quadrate non perfettamente regolari, di spessore 4 mm, nel formato 10x10 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di 0,9 mm circa. L'irregolarità delle tessere è un effetto voluto e ricercato ed è pertanto da considerarsi una caratteristica intrinseca del prodotto. Metal può presentare un effetto specchiato o non specchiato. Questa caratteristica deriva da una particolare lavorazione aggiuntiva che consiste nell'applicazione sul retro della tessera e a freddo di una sottile pellicola dorata e metallizzata che viene protetta da una speciale vernice. Il tutto conferisce al mosaico un effetto anticato. Queste due tipologie di tessere sono indicate solo per uso interno. Viene altresì sconsigliato l'utilizzo in bagno e /o comunque in ambienti con forte umidità.

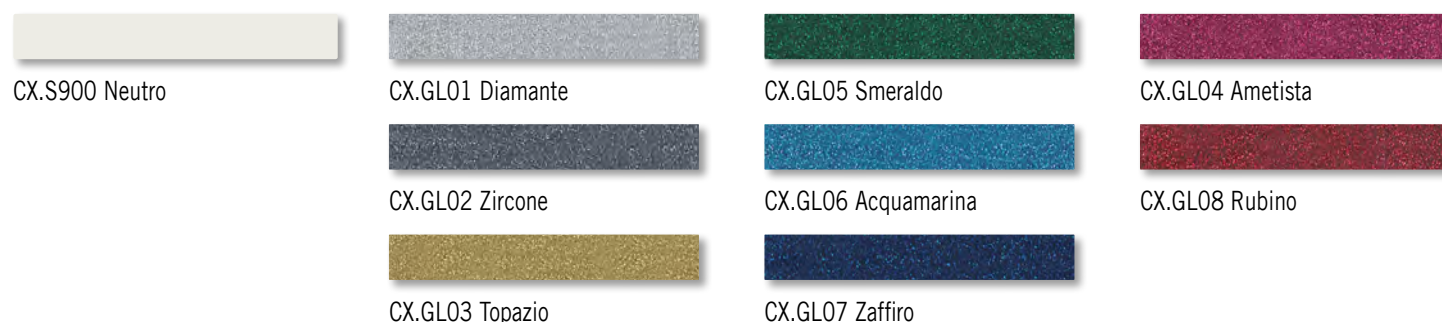

Fused glass mosaic with varying characteristics. The chips, some coloured and others clear, are produced with and without surface iridescence. The iridescence is created by a hot gloss coating process. The Metal collection consists of slightly irregular square chips 4 mm thick and 10x10 mm in size, mounted on glass fibre mesh. The chips form sheets of 327x327 mm with joints of about 0.9 mm. The irregularity in the chip shapes is intentional and helps to make this product special; it is an intrinsic feature and not a defect. Metal may have a mirror or non-mirror finish. This characteristic is provided by a specific additional cold process in which a thin gilded metallic film, protected by a special varnish, is applied to the underside of the chip. This gives the mosaic a time-worn antique effect. These two types of chip are only suitable for indoor use. They are also not recommended for use in bathrooms and/or any other particularly damp locations.

10.2017

Con la stampa di questo catalogo abbiamo cercato di avvicinarci il più possibile alla realtà cromatica delle tessere dei mosaici; i campioni stampati hanno tuttavia valore solamente indicativo.

When printing this catalogue, every effort has been made to reproduce the real colours of the mosaic chips; however, printed samples are guideline only.

Beim Druck dieses Katalogs achteten wir auf eine möglichst farbgetreue Wiedergabe der Mosaiksteine. Die gedruckten Muster sind jedoch nur ein Anhaltspunkt zum Original und deshalb unverbindlich.

Nous avons essayé de rapprocher le plus possible de la réalité la couleur des tesselles sur ce catalogue. Néanmoins, les échantillons imprimés sont donnés à titre purement indicatif.

Al imprimir el presente catálogo hemos tratado de reproducir lo más fielmente posible la realidad cromática de las teselas de los mosaicos; las muestras impresas, sin embargo, tienen un valor meramente orientativo.

В процессе печати данного каталога мы попытались как можно точнее воспроизвести реальные цвета элементов мозаики. Тем не менее напечатанные образцы имеют лишь приблизительное значение.
