Abalone nel formato 10x10 mm è disponibile solo in foglio rigido, in quanto la tessera che si ricava dalla conchiglia è leggermente più sottile e tende a rompersi facilmente. Per questo si utilizza un supporto rigido sul retro per proteggere il prodotto da eventuali rotture.

Abalone in size 10x10 mm is only available in rigid sheets, since the chips made from this shell are slightly thinner and tend to be brittle. A rigid backing is therefore used to protect the product from the risk of breakage.

Mosaico di vetro float, composto da tessere quadrate non perfettamente ortogonali, di spessore 4mm*, nel formato 10x10 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di circa 0.9 mm.

* La forma volumetrica a parallelepipedo delle tessere, non perfettamente ortogonale rispetto alla superficie, può comportare a posa ultimata a seconda delle condizioni di luce, riflessi e/o ombreggiature che per la forma stessa della tessera, della sua lucidità e della sua profondità, sono da considerarsi caratteristiche tecniche ed estetiche del prodotto.

The chips' parallelepiped three-dimensional form is not perfectly right-angled, so that the surface of the chip is not necessarily perfectly parallel to the substrate. Therefore, after laying in some lighting conditions bright reflections and/or areas of shade may occur; in view of the chip's shape, shine and depth, these features are intrinsic to the product's technical and appearance characteristics.

metal 10x10x4 mm

Mosaico in vetro fuso con diverse caratteristiche. Le tessere, a volte colorate, altre trasparenti, possono presentare o meno iridescenza in superficie. L'iridescenza è data da una glossatura eseguita a caldo. La collezione Metal è costituita da tessere quadrate non perfettamente regolari, di spessore 4 mm e formato 10x10 mm, montate su rete in fibra di vetro. Le tessere formano fogli di dimensione 327x327 mm in cui la fuga è di circa 0,9 mm*.

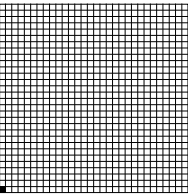

Fused glass mosaic with varying characteristics. The chips, some colored and others clear, are produced with and without surface iridescence. The iridescence is created by a hot gloss coating process. The Metal collection consists of slightly irregular square chips 4 mm thick and 10x10 mm in size, mounted on glass fibre mesh. The chips form sheets of 327x327 mm with joints of about 0.9 mm.*

* L'irregolarità delle tessere è un effetto voluto e ricercato ed è pertanto da considerarsi una caratteristica intrinseca del prodotto. Metal può presentare un effetto specchiato o non specchiato. Questa caratteristica deriva da una particolare lavorazione aggiuntiva che consiste nell'applicazione sul retro della tessera e a freddo di una sottile pellicola dorata e metallizzata che viene protetta da una speciale vernice. Il tutto conferisce al mosaico un effetto anticato. Queste due tipologie di tessere sono indicate solo per uso interno. Viene altresì sconsigliato l'utilizzo in bagno e/o comunque in ambienti con forte umidità.

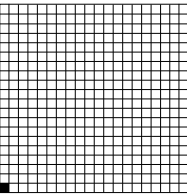

The irregularity in the chip shapes is intentional and helps to make this product special; it is an intrinsic feature and not a defect. Metal may have a mirror or non-mirror finish. This characteristic is provided by a specific additional cold process in which a thin gilded metallic film, protected by a special varnish, is applied to the underside of the chip. This gives the mosaic a time-worn antique effect. These two types of chip are only suitable for indoor use. They are also not recommended for use in bathrooms and/or any other particularly damp locations.

Mosaico di vetro fuso composto da smalto generalmente opaco, fatto da tessere quadrate non regolari, di spessore 4 mm, neli formato 10x10 mm e 15x15 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm o 295x295 mm (◻) in cui le tessere sono distanziate rispettivamente di 0,9 mm* e 1,4 mm* circa.

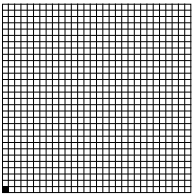

Fused glass mosaic consisting of generally matte glaze, comprising chips 4 mm thick with an irregular square shape, in size 10x10 mm and 15x15 mm, mounted on glass fibre mesh to form a sheet of 327x327 mm or 295x295 mm (◻) in which the chips are about 0.9 mm and 1,4 mm* apart respectively.*

* Tale misura può variare a causa dell' irregolarità della tessera. Caratteristica del prodotto è la non uniformità e omogeneità dello smalto, la superficie non perfettamente piana e la dimensione delle tessere non regolare dovuta al particolare processo produttivo.

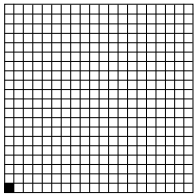

This gap may vary due to the chip's irregular shape. This product's distinctive features include the unevenness of its glaze and surface and the irregular chip size, which derives from the specific production process used.

Le tessere sono montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate rispettivamente di 0,9, 1,4 e 1,9 mm circa. Tale misura può variare a causa dell'irregolarità della tessera. Caratteristica del prodotto è la non uniformità e omogeneità dello superficie che risulta non perfettamente piana. Le tessere non regolari sono dovute al particolare processo produttivo.

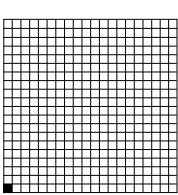

The chips are mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 0.9, 1.4 and 1.9 mm apart respectively. This gap may vary due to the chip's irregular shape. Its uneven surface is one of this product's key characteristics. The irregular chip shape is due to the specific production process used.

Mosaico in madreperla naturale composto da tessere quadrate ortogonali, di spessore 1,8 - 2 mm*, nel formato 10x10 mm, 15x15 mm e 20x20 mm, indicato esclusivamente per una posa a rivestimento. Le tessere sono montate su rete in fibra di vetro (ad eccezione di Abablone 10x10) a formare un foglio di dimensioni 300x300 mm in cui le tessere sono accostate senza fuga e non necessitano quindi di stuccatura.

Natural mother-of-pearl mosaic consisting of right-angled square chips 1.8 - 2 mm thick in the 10x10 mm, 15x15 mm and 20x20 mm sizes, only recommended for use as a wall covering. Chips are mounted on glass fibre mesh (Abalone 10x10 excluded) to form a sheet of 300x300 mm, without joints between the chips so that no grout is required.*

nacre irregular

Mosaico in madreperla composto da tessere irregolari dalle forme arrotondate, di spessore 1,8 - 2 mm*, indicato per una posa sia a rivestimento che a pavimento. Le tessere sono montate su rete in fibra di vetro a formare un foglio di dimensioni 300x300 mm in cui le tessere sono distanziate di 0,9 mm circa e necessitano quindi della stuccatura in fase di posa.

Nacre Irregular is a mother-of-pearl mosaic consisting of irregular, rounded chips 1.8 - 2 mm thick, recommended for use as a wall covering or floo ring. Chips are mounted on glass fibre mesh to form a sheet of 300x300 mm in which the chips are about 0.9 mm apart, meaning that grouting is required during installation.*

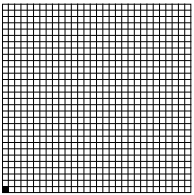

* _____ +

La condizione necessaria per una buona riuscita dell'installazione è costituita da una perfetta planarità del piano di posa, dato lo spessore ridotto del mosaico.

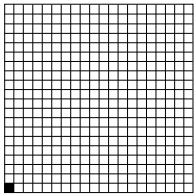

Since this mosaic is particularly thin, an absolutely level installation substrate is essential for good results.

Glass and gold mosaic consisting of square chips 4 mm thick, not perfectly right-angled, in sizes 10x10, 15x15 and 20x20 mm, with a 24 carat gold foil (thin film of gold) applied, protected by a layer of glass. The Doro collection is available in 2 finishes, "A Pavimento" ☒ and "A Rivestimento" ☒.*

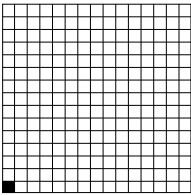

* _____ +

Nella finitura "A Pavimento" la foglia d'oro posta sul fondo, al di sotto della cartella di vetro, dona al mosaico un particolare effetto di profondità. Nella finitura "A Rivestimento" la foglia d'oro rimane in superficie per un risultato più compatto e materico.

In the "A Pavimento" finish, the gold foil applied to the back, underneath the glass layer, gives the mosaic a striking effect of depth. In the "A Rivestimento" finish, the gold foil is left on the surface, for a more compact, tactile look.

Hardwood mosaic comprising square chips 8 mm thick, in size 23x23 and 23x48 mm, mounted on glass fibre mesh to form a sheet of 300x300 mm in which the chips are about 2 mm apart.*

* La tessera di mosaico in legno è composta nella sua parte superiore da 4 mm di legno nobile massello e nella sua parte inferiore da 4 mm di materiale realizzato con polimeri rigenerati e fibre di legno provenienti da fonti ecocompatibili. L'incollaggio tra le due sezioni viene effettuato con un adesivo a base poliuretanica bicomponente, resistente all'acqua, al calore e a numerosi agenti chimici. Le caratteristiche del supporto tecnico denotano un assoluto rispetto per l'ambiente e la sicurezza: assenza assoluta di formaldeide; resistenza al fuoco (classe E1); resistenza e stabilità dimensionale e strutturale; resistenza all'acqua di scorrimento come la parete di una doccia. Non resistente in continua immersione. 5 sono le essenze: Rovere, Rovere Sbiancato, Doussié, Noce Canaletto e Wengé. Le tessere sono progettate e realizzate in Italia. Il materiale deve essere stuccato con stucco epossidico. Trattandosi di un prodotto naturale, le variazioni di tono sono da considerarsi caratteristiche intrinseche del prodotto.

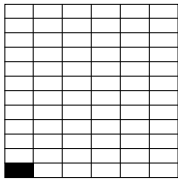

The top of the wooden mosaic chip consists of 4 mm of solid hardwood, while the bottom part comprises 4 mm of material made from regenerated polymers and wood fibre from environment-friendly sources. The two sections are glued together using a dual component polyurethane adhesive resistant to water, heat and a large number of chemicals. The characteristics of the technical substrate reflect the absolute prioritisation of the environment and safety:absolutely formaldehyde-free; fire resistant (class E1); dimensional and structural strength and stability; resistant to flowing water, as on the walls of shower enclosures. Not resistant to continuous immersion. There are 5 types of hardwood available: Oak, Bleached Oak, Doussié, Canaletto Walnut and Wengé. The chips are designed and produced in Italy. The joints in the material must be filled with an epoxy grout. Since this is a natural product, variations in shade are one of its intrinsic characteristics.

* La sinterizzazione, ottenuta con la macinazione e la compressione del vetro, permette di ottenere un prodotto ad elevata resistenza meccanica e chimica particolarmente indicato nei pavimenti anche ad elevato traffico. Le dimensioni e lo spessore delle tessere possono subire delle variazioni così come leggeri avvallamenti. Piccolissime intrusioni di colore, non ortogonalità delle tessere e conseguenti fughe non rettilinee sono considerate caratteristiche intrinseche del prodotto. Nella versione Grip, antiscivolo, sono possibili significative variazioni di tono causate dal particolare processo produttivo legato alla finitura superficiale.

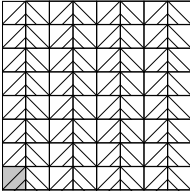

Sintering, a process in which the glass is ground and compressed, provides a product of excellent mechanical strength and chemical resistance, ideal for floors even with heavy traffic. The chips' size and thickness may vary, and slight depressions in the surface are also possible. Very small color intrusions, non-right angles in chips and the resulting crooked joints are intrinsic characteristics of this product. In the anti-slip Grip version, significant variations in shade are possible due to the special production processes required to obtain the surface finish.

Mosaico in vetro cattedrale. È un mosaico composto da materie prime artistiche. È più sottile del vetro sabbiato. Può essere colorato con tinte piene e piatte o avere una superficie stonalizzata e venata. Il design inusuale permette la stuccatura tono su tono per un effetto raffinato o a contrasto per dare alla composizione un carattere più eccentrico e di tendenza.

Dopo aver inciso la superficie con una leggera pressione, il materiale si romperà facilmente in corrispondenza all'incisione fatta col diamante. Nel caso non si disponga di un diamante, è possibile utilizzare una pinza da mosaicista.

condizioni generali di fornitura

1. PAGAMENTI

I pagamenti dovranno avvenire esclusivamente presso il domicilio del creditore. I termini e le modalità di pagamento indicate nella conferma d'ordine e/o nella fattura sono da intendersi perentori ed essenziali. Pertanto, in caso di mancato pagamento nel termine assegnato, l'Acquirente dovrà intendersi costituito in mora a tutti gli effetti di legge e saranno dovuti interessi convenzionali per il ritardo nella misura annua prevista dal D. Lgs. n°231/02. Al termine di ogni anno solare Mosaico+ S.r.l. sarà autorizzata ad emettere nota di addebito per gli eventuali interessi fino ad allora maturati. Qualora fosse convenuta per ogni fattura una dilazione di pagamento in rate successive ovvero più fatture con scadenze successive, il mancato pagamento di anche una sola delle scadenze comporterà l'automatica decadenza dell'Acquirente dal beneficio del termine concesso e pertanto questi dovrà provvedere all'immediato pagamento di tutta la merce ricevuta.

I costi per effettuare il pagamento (per emissione Ri.Ba., fissato bollato delle cambiali, presentazione effetti ecc.) saranno a carico dell'acquirente salvo diverso accordo scritto. La venditrice potrà sospendere l'esecuzione della prestazione se le condizioni patrimoniali dell'Acquirente saranno divenute tali da porre in pericolo il conseguimento della controprestazione.

Si intendono casi di evidente pericolo l'apertura di procedure concorsuali, la messa in liquidazione dell'azienda, l'esistenza di protesti, pignoramenti, iscrizione di ipoteche giudiziarie e volontarie, revoca degli affidamenti bancari, insolvenze.

Ai sensi dell'art. 1462 c.c. l'Acquirente non potrà opporre alcuna eccezione al fine di evitare o ritardare l'adempimento alle proprie obbligazioni.

5. TOLLERANZE

Mosaico+ S.r.l. specifica espressamente che il colore delle tessere di mosaico non è mai uniforme e il riferimento ai campionari è puramente indicativo e suscettibile di variazioni nell'ambito delle tolleranze di fabbricazione del colore stesso. Così come indicative e suscettibili di variazione sono le percentuali dei colori nelle cromie.

La presenza di toni diversi mescolati sono, ad insindacabile giudizio e valutazione del produttore, disomogeneità dipendenti anche dal tipo di colore e ne sono una sua peculiare caratteristica. Precisa che fra le diverse partite di materiale sono possibili variazioni di tonalità che rientrano nei limiti di tolleranza della produzione, così come piccole inclusioni e/o scheggiature in alcune tessere.

Le dimensioni delle tessere sono indicative delle misure nominali al netto delle tolleranze di produzione. Altresi dicasi per le fughe varianti in funzione della dimensione reale della tessera. Alcune collezioni per la loro specificità assumono, con la irregolarità della tessera, la valenza di mosaico artistico.

Pertanto l'Acquirente dichiara di essere a conoscenza che i prodotti possano avere variazioni di tonalità e/o di altre caratteristiche sopra menzionate, oltre ad eventuali microporosità e di accettare tali caratteristiche.

La venditrice non risponde di variazioni di colori/

toni, per ordini formulati o eseguiti in tempi diversi. Il mosaico in legno e i mix contenenti tessere in legno devono essere tassativamente stuccate con stucco epossidico maturato almeno 7 (sette) giorni prima di essere a contatto con l'acqua, e non possono essere posate su supporti o superfici in immersione frequente o costante (p.es.: piatto doccia, vasca da bagno ecc). 1. PAYMENTS

Payments shall only be made to the creditor's domicile. The payment terms and procedures stated in the order confirmation and/or invoice are essential and binding. Therefore, in the event of failure to pay within the stated term, the Purchase shall be considered in default to all legal intents and purposes and interest shall be due on the overdue amount at the annual rate specified by Italian Decree Law n. 231/02. At the end of each calendar year Mosaico+ S.r.l. shall be authorised to issue a debit note for any interest accrued up to that date.

In the event that payment by instalments is agreed for each invoice, or several invoices with due dates in sequence are issued, failure to pay even just one instalment or invoice shall automatically lead to forfeiture on the Purchaser's part of all right to make delayed payments, and therefore it shall be obliged to make immediate payment for all the goods received.

All costs relating to the payment (issue of bank payment orders, stamp duty on bills of exchange, presentation of bills, etc.) shall be for the purchaser's account unless otherwise agreed.

The vendor shall be permitted to cease the supply of goods in the event that the Purchaser's financial situation is such as to cast doubt on its ability to pay.

Indications of financial unsoundness shall include the opening of bankruptcy procedures, placing of the company in liquidation, protested bills, attachments, the registration of mortgages by court order and voluntary mortgages, the cancellation of bank credit lines and insolvency.

2. PACKAGING

Material shall be delivered with standard packaging suitable for the means of transport. Any other form of packaging shall be charged for at cost and shall be agreed in writing.

3. DELIVERY AND TRANSPORT

Goods shall be delivered ex-works under art. 1510 of the Italian Civil code and the Purchaser shall collect them from the vendor's premises.

In the event that, on the Purchaser's request, the vendor sends the goods using its own vehicle or through a carrier or forwarding agent, the goods shall still be considered delivered ex-works and shall travel at the Purchaser's risk.

Mosaico+ S.r.l. shall be authorised to enter into the contract with the carrier or forwarding agent in the Purchaser's interest, with costs and expenses for the latter's account.

Therefore, in all the hypotheses described above, in the event of theft of and/or damage to the transported goods, the vendor shall not be held responsible.

The prices stated in the catalogues are ex-works Casalgrande (Reggio Emilia, Italy), not including V.A.T.

The delivery times stated in the order proposal and/or confirmation of order are guideline and not binding. All agreements to the contrary must be confirmed in writing.

4. WARRANTY

The material delivered is guaranteed against defects or failure to meet quality standards for 12 months from the moment of delivery.

Mosaico+ S.r.l. shall not be held responsible for faults and/or defects caused by the installation operations.

4 Bis. Complaints

Under art. 1495 of the Italian Civil Code, any faults shall be formally reported by registered letter with return receipt within 8 (eight) days after delivery of the material, or in the case of hidden defects, after their discovery. In the event of complaints made within the aforesaid terms, the vendor shall be obliged solely to replace the faulty goods in the shortest possible time, and shall not be liable for damage of any kind incurred by the Purchaser, for any reason. Complaints for damage to goods in transit, whether by carrier, forwarding agent or the sender, shall be made at the moment of delivery and reported on the transport document, with the driver's signature in confirmation.

In all cases, materials must be inspected before installation, and no complaints shall be accepted with regard to material already installed.

The vendor shall not be responsible for delays in consignment of the completed works by the Purchaser, or costs relating to the installation and/or removal of defective goods. In the event that the procedures set out above are not completed by the stated procedures and within the stated times, the complaint shall not be accepted and the Purchaser shall forfeit all warranty entitlement.

Pursuant to art. 1462 of the Italian Civil Code, the Purchaser shall not make complaints for the purposes of avoiding or delaying the fulfilment of its obligations.

5. TOLERANCES

Mosaico+ S.r.l. specifically states that the colour of mosaic chips is never uniform and reference to samples is purely guideline and subject to variation within the colour's manufacturing tolerance range. The colour percentages stated for the various shades are also purely guideline and subject to variation.

The presence in the materials supplied of a mixture of different shades, at the absolute discretion of the manufacture, provides a degree of variation arising from the type of colour, of which it is a distinctive characteristic.

The manufacturer points out that variations of shade, within the tolerance limits for production, are possible between different lots of material, and small inclusions of different materials and/or splintering of some chips are also normal features. Stated chip sizes refer to nominal dimensions net of production tolerances. The same applies to joint widths, which vary depending on the actual chip size. In some collections, the irregularity of the chips used is crucial to the artistic value of the mosaic.

Therefore, the Purchaser declares that it is aware that the products may have slight variations in shade and/or other characteristics referred to above, as well as possible microporosity, and accepts these features.

The vendor shall not be liable for variations in

colors/shades in the event of orders placed or fulfilled at different times. Wood mosaics, and mixes which contain wooden chips, must only be grouted with epoxy grout left to cure for at least 7 (seven) days before contact with water, and cannot be laid or substrates or surfaces which are often or always wet (e.g.: shower trays, bathtubs, etc.). The material, in its intact original packaging, must be protected from rain or excessive damp during both transport and storage on the installation site or in the warehouse.

6. RETURNS

No returns of goods shall be accepted unless specifically authorised in writing by the management at Casalgrande (Reggio Emilia, Italy). The return document shall contain the references to the transport document issued on delivery of the goods. Returned materials shall be shipped in their original undamaged packaging, freight prepaid, at the Purchaser's risk, unless otherwise agreed. On receipt and subsequent inspection of the goods, the vendor shall issue the relative credit note for 90% of their value.

6. Bis

Kindly note that no reductions in quantities or returns will be accepted with regard to customised products and/or products manufactured to your specifications stated as such in the order confirmation. Their cost will therefore be charged to your account regardless of whether or not you take delivery of them.

7. PROPERTY RIGHTS

The Purchaser shall acquire ownership of the material on delivery of the goods pursuant to art. 3 above.

If the goods are delivered by a carrier, the transfer of ownership shall still occur on consignment to the carrier or forwarding agent.

8. COMPETENT LAW COURT

All disputes concerning the existence, validity, interpretation, fulfilment and/or termination of the sales contracts to which these general conditions apply shall be governed by Italian law and subject to the jurisdiction of the Italian courts. The judicial authorities of the Milano Law Court shall have sole jurisdiction.

5. TOLERANZEN

Mosaico+ S.r.l. weist ausdrücklich darauf hin, dass die Farbe der Mosaiksteine niemals einheitlich ist. Die Farbmuster sind Richtangaben. Abweichungen im Rahmen der Herstellungstoleranzen der jeweiligen Farbe sind möglich. Auch die Farbanteile der einzelnen Nuancen sind Richtangaben und können Abweichungen erfahren. Der Mix mehrerer verschiedener Farbtöne ist, nach unanfechtbarem Dafürhalten und Urteil des Herstellers, ein ungleichmäßiges, auch vom jeweiligen Farbtyp abhängiges Farbbild und ein typisches Merkmal. Zwischen den einzelnen Materialpartien sind Farbabweichungen innerhalb der Herstellungstoleranzen sowie kleine Einschlüsse und/oder Splitterungen an einzelnen Mosaiksteinen möglich. Die Abmessungen der Mosaiksteine entsprechen richtungsweisend den Nennmaßen zuzüglich der Herstellungstoleranzen. Das gilt ebenfalls für die Fugen in Abhängigkeit vom Istmaß des Mosaiksteins. Einige Kollektionen nehmen aufgrund ihrer Besonderheit durch die unregelmäßigen Mosaiksteine den Charakter eines künstlerischen Mosaiks an. Der Käufer erklärt daher in Kenntnis zu sein, dass die Produkte Abweichungen in der Farbe und/oder

anderen oben genannten Merkmalen sowie etwaige Mikroporositäten aufweisen können und diese Umstände zu akzeptieren.

Der Verkäufer haftet nicht für Farb-/Tonabweichungen von Aufträgen, die zu unterschiedlichen Zeitpunkten erteilt oder abgewickelt werden. Das Mosaik in Holz und der Materialmix mit Mosaiksteinen in Holz müssen unbedingt mit Epoxidmörtel ausgefugt werden, der mindestens 7 (sieben) Tage vor dem Kontakt mit Wasser gereift ist. Sie dürfen nicht auf häufig oder dauerhaft unter Wasser befindlichen Untergründen oder Flächen (z.B. Duschtasse, Badewanne etc.) verlegt werden. Das Material muss bei Transport, auf der Baustelle oder im Lager in unversehrter Originalverpackung vor Regen oder starker Feuchtigkeit geschützt werden.

5. TOLÉRANCES

Mosaico+ S.r.l. précise expressément que les tesselles de mosaïque n'ont jamais une couleur uniforme et que les échantillonnages ont un caractère purement indicatif et peuvent subir des variations dans les limites des tolérances de fabrication de la couleur. De même, pour les tonalités, les pourcentages de couleur sont donnés à purement indicatif et ils peuvent subir des variations.

Les différentes tonalités mélangées sont, à la discrétion absolue et exclusive du fabricant, des hétérogénéités qui dépendent aussi de la couleur, et elles constituent l'un de ses traits distinctifs. Mosaico+ S.r.l. précise également que les lots de produits peuvent présenter des variations de tonalités qui restent dans les limites de tolérance de la fabrication, ainsi que des petites inclusions et/ou des ébréchures sur quelques tesselles. Les dimensions des tesselles sont indicatives de la valeur nominale après déduction des tolérances de fabrication. Il en va de même pour les joints qui varient en fonction des dimensions réelles de la tesselle. L'irrégularité des tesselles procure une valeur de mosaïque artistique aux collections qui présentent des caractéristiques particulières. Par conséquent, l'acheteur déclare être au courant que les produits peuvent présenter les

variations susvisées relatives aux tonalités et/ou aux autres signes distinctifs, ainsi que des microporosités éventuelles, et il déclare accepter ces caractéristiques.

La vendeuse ne saurait être tenue pour responsable des variations de couleurs/tonalités pour les commandes passées ou préparées à des moments différents. La mosaïque en bois et les kits avec tesselles en bois doivent être obligatoirement posés avec un mortier époxy qui doit reposer au moins 7 (sept) jours avant tout contact avec l'eau. El material entregado está garantizado contra posibles vicios o faltas de calidad por doce meses a contar de la fecha de entrega. Mosaico+ S.r.l. declinará toda responsabilidad por vicios y/o defectos imputables a las operaciones de colocación.

4 Bis. Cuestionamientos

Según lo dispuesto por el art. 1495 c.c., pena caducidad del derecho, eventuales vicios deberán ser formalmente denunciados mediante carta certificada con aviso de recibo dentro de los 8 (ocho) días sucesivos a la entrega del material y, en el caso de vicios ocultos, a su descubrimiento. En caso de denuncia dentro del plazo señalado, la parte vendedora estará obligada únicamente a sustituir la mercancía defectuosa en el menor tiempo posible y no responderá en ninguna circunstancia por daños de cualquier naturaleza sufridos por el comprador.

El reclamo por eventuales daños sufridos por la mercancía durante el transporte, efectuado tanto por transportista como por el remitente, deberá presentarse en el momento de la entrega, con anotación en el documento de transporte contrafirmada por el conductor del vehículo. En todo caso, los materiales deberán ser controlados antes de su colocación, ya que no se aceptarán cuestionamientos relativos a material ya colocado. En particular, la parte vendedora no responderá por retrasos de entrega de la obra de parte del comprador ni por costes relativos al montaje y al desmontaje de mercancía defectuosa. En caso de no aplicarse los procedimientos de la manera y dentro de los plazos establecidos, el reclamo no será aceptado y el comprador perderá el derecho de garantía. En conformidad con lo dispuesto por el art. 1462 c.c., el comprador no podrá oponer ninguna excepción a fin de evitar o retardar el cumplimiento de sus propias obligaciones.

5. TOLERANCIAS

Mosaico+ S.r.l. especifica explícitamente que el color de las teselas de mosaico nunca es del todo uniforme y que las referencias de los muestrarios son meramente orientativas y susceptibles de variaciones dentro de los márgenes de tolerancia de fabricación de los tintes. También es orientativo y susceptible de variaciones el porcentaje de colores en las coloraciones. La presencia de tonalidades distintas mezcladas es, según el juicio y la valoración inapelables del fabricante, una falta de homogeneidad que en parte se debe al tipo de color y constituye una característica peculiar del mismo. Precisa que entre las diversas partidas de material pueden darse variaciones de tono, dentro de los límites de tolerancia de la producción, así como pequeñas impurezas y/o melladuras en algunas teselas.Las dimensiones de la teselas se refieren a las medidas nominales sin tener en cuenta desviaciones mínimas por defectos admisibles de fabricación. Lo mismo vale para las juntas, que pueden variar en función de la medida real de la tesela. Con la irregularidad de su tesela, algunas colecciones, por su especificidad, adquieren valor de mosaico artístico. Por consiguiente el comprador declara saber que los productos pueden presentar variaciones en el tono y/o en otras

características, como las mencionadas más arriba,

además de posibles microporosidades, y declara asimismo que acepta tales características. La parte vendedora no responderá por variaciones de color ni tonalidad en relación con pedidos cursados o despachados en períodos diferentes. Tanto el mosaico de madera como las mezclas que contengan teselas de madera deberán estucarse necesariamente con masilla epoxídica bien asentada, aplicada al menos 7 (siete) días antes de entrar en contacto con el agua, y no podrán colocarse sobre soportes ni superficies sometidos a inmersión frecuente o constante (como, por ejemplo, platos de ducha, bañeras, etc.). El material, guardado en sus embalajes originales e íntegros, debe preservarse de la lluvia o de la excesiva humedad tanto durante el transporte como a lo largo de su depósito en la obra o el almacén.

6. DEVOLUCIONES

No se aceptarán devoluciones sin la previa y expresa autorización por escrito de la Dirección de Villalunga di Casalgrande (Reggio Emilia, Italia). El documento de devolución deberá contener las referencias del documento de transporte emitido en el momento de la entrega. Los materiales devueltos deberán ser restituidos en su embalaje original íntegro y enviados en porto prepagado a riesgo del comprador, a menos que se haya acordado de otro modo. En el momento de la recepción de la mercancía y tras la revisión de la misma, la vendedora emitirá la correspondiente nota de abono del 90% del valor de la mercancía.

6. Bis

Téngase en cuenta que no se aceptarán devoluciones ni reducciones de cantidad en productos personalizados y/o realizados conforme a características específicas solicitadas por el cliente e indicadas en la confirmación de pedido. Por lo tanto, se cobrará el costo correspondiente, independientemente de si se retiran o no.

7. PROPIEDAD

El comprador adquirirá la propiedad del material con la entrega del mismo, según lo dispuesto por el precedente art. 3. En caso de mercancía entregada por transportista, el efecto trasladador de la propiedad se verificará en todo caso con la entrega al transportista.

8. FORO COMPETENTE

Toda posible controversia relativa a la existencia, validez, interpretación, ejecución y/o resolución de los contratos de compraventa a los que se aplicarán las presentes condiciones generales, se ajustará a lo dispuesto por la ley italiana y quedará sometida a la jurisdicción italiana. En particular, será competente única y exclusivamente la Autoridad Judicial del Foro de Milano.

общие условия поставки

1 . ОПЛАТА

Оплата должна производиться исключительно по адресу кредитора. Сроки и условия оплаты, указанные в подтверждении заказа и/или фактуре, являются окончательными и основными. Поэтому, в случае невыполнения оплаты в указанные сроки по закону считается что Покупатель имеет задолженность, на сумму которой начисляются предусмотренные годовые проценты за задержку платежа в соответствии с Указом №231/02. В конце каждого календарного года компания Mosaico+ S.r.l. будет иметь право выписать дебетовое авизо по накопленным на текущий момент процентам. В случае если по каждой фактуре достигнута договоренность об отсрочке оплаты в последующих взносах или дополнительных фактурах с последующим сроком оплаты, несоблюдение даже одного срока оплаты автоматически ведет к потере права Покупателя на предоставленную отсрочку, и в этом случае Покупатель обязан произвести немедленную оплату всего полученного товара. Расходы по выполнению платежа (по выписке банковской квитанции, договорной записке по векселям, предъявлению долговых обязательств и т.д.) будут за счет Покупателя, если не предусмотрено иное письменное соглашение. Продавец может отменить выполнение услуги, если финансовое положение Покупателя таково, что оно подвергает риску получение компенсации за выполненную услугу. Имеются в виду случаи очевидного риска как то: начало конкурсного производства, объявление о несостоятельности предприятия, существование опротестований, наложение ареста на имущество, запись в судебную и добровольную ипотеку, отзыв банковских гарантий, неплатежеспособность.

2 . УПАКОВКА

Материал поставляется в стандартной упаковке, пригодной для транспортировки. Иной тип упаковки будет включен в счет и должен быть согласован письменно в подтверждении заказа.

3 . ПОСТАВКА И ТРАНСПОРТИРОВКА

Поставка выполняется на условиях франко фабрика в соответствии со статьёй 1510 Г.К., и товар должен забираться Покупателем на фабрике. В любом случае, если по заказу Покупателя Продавец обеспечит отправку товара собственным транспортным средством или через транспортное агентство или через экспедитора, товар считается поставленным на условиях франко предприятие и все риски, связанные с транспортировкой, будут за счет Покупателя. Компания Mosaico+ S.r.l. будет считаться уполномоченной на заключение контракта с указанными субъектами в интересах и за счет Покупателя. Поэтому, при всех вышеназванных вариантах, в случае обнаружения краж и/или повреждения перевозимого товара Продавец не считается за это ответственным. Цены, указанные в каталоге, следует понимать как франко предприятие Casalgrande (RE), Н.Д.С. не включен. Сроки поставки, указанные в коммерческом предложении и/или в подтверждении заказа, считаются ориентировочными, а не обязательными. Любое иное соглашение, чтобы оно было действующим, должно быть оформлено в письменном виде.

4. ГАРАНТИЯ

Поставленный материал имеет гарантию от возможного брака или дефектов качества в течение 12 месяцев с момента поставки. Компания Mosaico+ S.r.l. не несет ответственности за брак и/или дефекты качества, появившиеся в результате укладки.

4 BIS . РЕКЛАМАЦИИ

В соответствии со ст. 1495 Г.К. выявленный брак должен быть официально заявлен посредством заказного письма с уведомлением в течение 8 (восьми) дней с момента поставки материала или, в случаях скрытого брака, с момента его обнаружения, при иных условиях происходит отмена гарантии. В случае поступления заявления в указанные сроки Продавец обязан исключительно заменить бракованный товар в кратчайшие сроки, но несет ответственности ни по каким причинам за любой ущерб, понесенный Покупателем. Заявление о рекламации на выявленные повреждения, нанесенные товару во время перевозки транспортом транспортного агентства, экспедитора или отправителя, должно быть оформлено в момент поставки и отмечено в транспортной накладной, подписанной водителем транспортного средства. В любом случае, материал должен быть проконтролирован перед тем как начать его укладку, жалобы на уже уложенный материал не принимаются. В частности, Продавец не несет ответственности за задержки в сдаче работ со стороны Покупателя или за расходы, вызванные укладкой и демонтажом бракованного материала. В случае если вышеописанные процедуры не будут проведены согласно установленным методам и срокам, рекламация не будет принята, а Покупатель теряет право на гарантию. В соответствии со ст. 1462 Г.К. Покупатель не вправе требовать каких-либо исключений с целью избежать или задержать выполнение собственных обязательств.

5 . ДОПУСКИ

Компания Mosaico+ S.r.l. обращает внимание на то, что цвет элементов мозаики никогда не однороден, а ссыла на образцы является лишь только приблизительной и зависящей от изменений, которые могут возникнуть во время приготовления красителя. Аналогично, приблизительными и подлежащими изменениям являются проценты отдельных цветов в цветовых смесях spotie. По неоспоримому мнению и заключению производителя наличие в смеси различных оттенков является отличием, зависящим также от типа цвета, и представляет собой характерную особенность изделия. Компания уточняет, что в разных партиях материала возможны изменения тона, соответствующие предельным производственным допускам, в том числе небольшие включения и/или сколы некоторых элементов. Размеры элементов являются номинальными и могут иметь производственные допуски. Размеры швов также являются приблизительными и зависят от реальных размеров элементов мозаики. Ввиду своей специфичности и благодаря неровностям элементов некоторые коллекции принимают характер художественной мозаики. Ввиду вышесказанного, покупатель заявляет о том, что он ознакомлен с тем, что продукция может

обладать отличиями тона цвета и/или другими

вышеуказанными характеристиками, включая микропористость, и принимает эти особенности. Продавец не несет ответственности за изменения цветов/тона в заказах, сделанных в разное время. Мозаика из дерева и смеси с элементами из дерева должны обязательно заделываться эпоксидными затирками и выдерживаться не менее 7 (семи) дней перед тем, как вступить в контакт с водой. Кроме того, они не должны укладываться на основы или поверхности, которые часто и постоянно погружаются под воду (напр.: душевой поддон, ванна и т.д.). Материал, хранящийся в заводской, ненарушенной упаковке, должен быть защищен от дождя или от чрезмерной влаги, как во время перевозки, так и во время хранения на стройплощадке или на складе.

6 . ВОЗВРАТЫ

Возвраты не принимаются, если они письменно не разрешены дирекцией Casalgrande (RE). Документ возврата должен содержать исходные данные транспортной накладной, оформленной в момент поставки и отмечено в транспортной накладной, подписанной водителем транспортного средства. При отсутствии иных договоренностей материал на возврат должен быть упакован в оригинальную неповрежденную упаковку и отправлен с оплатой перевозки под ответственность Покупателя. После получения и проверки возвращенного товара продавец выпустит кредит-ноту, размер которой составит 90% от стоимости товара.

6. БИС

Обращаем внимание на то, что персонализированная продукция, а также изготовленная по вашим спецификациям, указанным в подтверждении заказа, не подлежит возврату, изменениям и уменьшениям заказанных количеств. Поэтому, вне зависимости от вывоза этой продукции, ее оплата будет взиматься в любом случае.

7 . ПРАВО СОБСТВЕННОСТИ

Продавец приобретает право собственности на материал в момент поставки материала в соответствии с выше приведенным параграфом 3. Если товар поставляется перевозчиком переход права собственности в любом случае происходит в момент передачи товара перевозчику или экспедитору.

8 . КОМПЕТЕНТНЫЙ СУД

Любой спор, возникающий в связи с существованием, законностью и сроком действия, интрепретацией, выполнением и/или расторжением контрактов о купле/продаже, к которым будут применимы данные общие условия, будет решаться на основе итальянского законодательства и подлежат итальянской юрисдикции. В частности, он будет передан на рассмотрение исключительно в Судебные Органы города Милан.

Con la stampa di questo catalogo abbiamo cercato di avvicinarci il più possibile alla realtà cromatica delle tessere dei mosaici; i campioni stampati hanno tuttavia valore solamente indicativo.

When printing this catalogue, every effort has been made to reproduce the real colors of the mosaic chips; however, printed samples are guideline only.

Beim Druck dieses Katalogs achteten wir auf eine möglichst farbgetreue Wiedergabe der Mosaiksteine. Die gedruckten Muster sind jedoch nur ein Anhaltspunkt zum Original und deshalb unverbindlich.

Nous avons essayé de rapprocher le plus possible de la réalité la couleur des tesselles sur ce catalogue. Néanmoins, les échantillons imprimés sont donnés à titre purement indicatif.

Al imprimir el presente catálogo hemos tratado de reproducir lo más fielmente posible la realidad cromática de las teselas de los mosaicos; las muestras impresas, sin embargo, tienen un valor meramente orientativo.

Во время печати данного каталога мы попытались как можно точнее воспроизвести реальные цвета элементов мозаики. Тем не менее, напечатанные образцы имеют лишь приблизительное значение.
