**MOSAICO+ PROPONE MATERIALI PER L'INTERIOR.
I MOSAICO VENGONO SUDDIVISI IN 10 GRANDI FAMIGLIE COLORE
PER CONSENTIRNE UNA PIÙ SEMPLICE RICERCA:
WHITE+GREY+BLACK; NEUTRAL; BROWN; POWDER; YELLOW; RED;
PINK+VIOLET; BLUE; TURQUOISE; GREEN.**

*Mosaico+ offers materials for interior design.
Mosaics are subdivided into 10 large
color families for easier identification:
White+Grey+Black; Neutral; Brown; Powder;
Yellow; Red; Pink+Violet; Blue; Turquoise; Green.*

mosaics solid colors

IL MOSAICO È ANZITUTTO MATERIA SPEZZATA E RIDOTTA A PICCOLI ELEMENTI CHE CREANO SUPERFICI SENZA SOLUZIONE DI CONTINUITÀ, IN CUI IL GIUNTO, MOLTIPLICATO E INCORPORATO NEL PATTERN, NON DIVIDE MA LEGA TRA LORO LE TESSERE. LE TINTE UNITE SONO COMPOSTE DA DIFFERENTI MATERIE O DA UNA STESSA MATERIA LAVORATA DIVERSAMENTE. OGNI MATERIA RISPONDE IN MODO DIVERSO ALLA LUCE, A SECONDA DI OPACITÀ, LUCENTEZZA, MATERICITÀ, TEXTURE ECC.. LE TINTE UNITE SONO SUDDIVISE NELLE 10 FAMIGLIE COLORE.

Mosaic is fundamental matter broken down into small pieces which create seamless surfaces, in which the multiple joints are incorporated into the pattern and unite rather than dividing the chips. Solid colors consist of different materials or the same material finished in different ways. Each material responds different to the light, depending on its matt or glossy finish, tactile surface, texture, etc. Solid colors subdivide into the 10 color families.

INFORMAZIONI TECNICHE | TECH INFO +

vetrina 10x10x4 mm +

Mosaico di vetro float, composto da tessere quadrate non perfettamente ortogonali, di spessore 4mm*, nel formato 10x10 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di circa 0.9 mm.

Float glass mosaic comprising square chips 4 mm thick, not perfectly right-angled, in size 10x10 mm, mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 0.9 mm apart.*

* +

La forma volumetrica a parallelepipedo delle tessere, non perfettamente ortogonale rispetto alla superficie, può comportare a posa ultimata a seconda delle condizioni di luce, riflessi e/o ombreggiature che per la forma stessa della tessera, della sua lucidità e della sua profondità, sono da considerarsi caratteristiche tecniche ed estetiche del prodotto.

The chips' parallelepiped three-dimensional form is not perfectly right-angled, so that the surface of the chip is not necessarily perfectly parallel to the substrate. Therefore, after laying in some lighting conditions bright reflections and/or areas of shade may occur; in view of the chip's shape, shine and depth, these features are intrinsic to the product's technical and appearance characteristics.

metal 10x10x4 mm +

Mosaico in vetro fuso con diverse caratteristiche. Le tessere, a volte colorate, altre trasparenti, possono presentare o meno iridescenza in superficie. L'iridescenza è data da una glossatura eseguita a caldo. La collezione Metal è costituita da tessere quadrate non perfettamente regolari, di spessore 4 mm e formato 10x10 mm, montate su rete in fibra di vetro. Le tessere formano fogli di dimensione 327x327 mm in cui la fuga è di circa 0,9 mm*.

Fused glass mosaic with varying characteristics. The chips, some colored and others clear, are produced with and without surface iridescence. The iridescence is created by a hot gloss coating process. The Metal collection consists of slightly irregular square chips 4 mm thick and 10x10 mm in size, mounted on glass fibre mesh. The chips form sheets of 327x327 mm with joints of about 0.9 mm.*

* +

L'irregolarità delle tessere è un effetto voluto e ricercato ed è pertanto da considerarsi una caratteristica intrinseca del prodotto. Metal può presentare un effetto specchiato o non specchiato. Questa caratteristica deriva da una particolare lavorazione aggiuntiva che consiste nell'applicazione sul retro della tessera e a freddo di una sottile pellicola dorata e metallizzata che viene protetta da una speciale vernice. Il tutto conferisce al mosaico un effetto anticato. Queste due tipologie di tessere sono indicate solo per uso interno. Viene altresì sconsigliato l'utilizzo in bagno e/o comunque in ambienti con forte umidità.

The irregularity in the chip shapes is intentional and helps to make this product special; it is an intrinsic feature and not a defect. Metal may have a mirror or non-mirror finish. This characteristic is provided by a specific additional cold process in which a thin gilded metallic film, protected by a special varnish, is applied to the underside of the chip. This gives the mosaic a time-worn antique effect. These two types of chip are only suitable for indoor use. They are also not recommended for use in bathrooms and/or any other particularly damp locations.

INFORMAZIONI TECNICHE | TECH INFO

concerto 10x10x4 mm | 15x15x4 mm

Mosaico di vetro fuso composto da smalto generalmente opaco, fatto da tessere quadrate non regolari, di spessore 4 mm, neli formato 10x10 mm e 15x15 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm o 295x295 mm (□) in cui le tessere sono distanziate rispettivamente di 0,9 mm* e 1,4 mm* circa.

Fused glass mosaic consisting of generally matte glaze, comprising chips 4 mm thick with an irregular square shape, in size 10x10 mm and 15x15 mm, mounted on glass fibre mesh to form a sheet of 327x327 mm or 295x295 mm (□) in which the chips are about 0.9 mm and 1,4 mm* apart respectively.*

*

Tale misura può variare a causa dell' irregolarità della tessera. Caratteristica del prodotto è la non uniformità e omogeneità dello smalto, la superficie non perfettamente piana e la dimensione delle tessere non regolare dovuta al particolare processo produttivo.

This gap may vary due to the chip's irregular shape. This product's distinctive features include the unevenness of its glaze and surface and the irregular chip size, which derives from the specific production process used.

perle 10x10x4 mm | 15x15x4 mm

Mosaico di vetro fuso composto da smalto con iridescenza in superficie, composto da tessere quadrate non regolari, di spessore 4 mm, nel formato 10x10 mm* e 15x15 mm*..

Fused glass mosaic consisting of glaze with surface iridescence, comprising chips 4 mm thick with an irregular square shape, in size 10x10 mm and 15x15 mm*.*

perle 20x20x4 mm

Mosaico di vetro fuso con iridescenza in superficie, composto da tessere quadrate e bisellate, di spessore 4 mm, nel formato 20x20 mm*.

Fused glass mosaic with surface iridescence, comprising bevelled square chips 4 mm thick, in size 20x20 mm.*

*

Le tessere sono montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate rispettivamente di 0,9, 1,4 e 1,9 mm circa. Tale misura può variare a causa dell'irregolarità della tessera. Caratteristica del prodotto è la non uniformità e omogeneità della superficie che risulta non perfettamente piana. Le tessere non regolari sono dovute al particolare processo produttivo.

The chips are mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 0.9, 1.4 and 1.9 mm apart respectively. This gap may vary due to the chip's irregular shape. Its uneven surface is one of this product's key characteristics. The irregular chip shape is due to the specific production process used.

nacre 10x10x2 mm | 15x15x2 mm | 20x20x2 mm

Mosaico in madreperla naturale composto da tessere quadrate ortogonali, di spessore 1,8 - 2 mm*, nel formato 10x10 mm, 15x15 mm e 20x20 mm, indicato esclusivamente per una posa a rivestimento. Le tessere sono montate su rete in fibra di vetro (ad eccezione di Abablone 10x10) a formare un foglio di dimensioni 300x300 mm in cui le tessere sono accostate senza fuga e non necessitano quindi di stuccatura.

Natural mother-of-pearl mosaic consisting of right-angled square chips 1.8 - 2 mm thick in the 10x10 mm, 15x15 mm and 20x20 mm sizes, only recommended for use as a wall covering. Chips are mounted on glass fibre mesh (Abalone 10x10 excluded) to form a sheet of 300x300 mm, without joints between the chips so that no grout is required.*

nacre irregular

Mosaico in madreperla composto da tessere irregolari dalle forme arrotondate, di spessore 1,8 - 2 mm*, indicato per una posa sia a rivestimento che a pavimento. Le tessere sono montate su rete in fibra di vetro a formare un foglio di dimensioni 300x300 mm in cui le tessere sono distanziate di 0,9 mm circa e necessitano quindi della stuccatura in fase di posa.

Nacre Irregular is a mother-of-pearl mosaic consisting of irregular, rounded chips 1.8 - 2 mm thick, recommended for use as a wall covering or floo ring. Chips are mounted on glass fibre mesh to form a sheet of 300x300 mm in which the chips are about 0.9 mm apart, meaning that grouting is required during installation.*

*

La condizione necessaria per una buona riuscita dell'installazione è costituita da una perfetta planarità del piano di posa, dato lo spessore ridotto del mosaico.

Since this mosaic is particularly thin, an absolutely level installation substrate is essential for good results.

Abalone nel formato 10x10 mm è disponibile solo in foglio rigido, in quanto la tessera che si ricava dalla conchiglia è leggermente più sottile e tende a rompersi facilmente. Per questo si utilizza un supporto rigido sul retro per proteggere il prodotto da eventuali rotture.

Abalone in size 10x10 mm is only available in rigid sheets, since the chips made from this shell are slightly thinner and tend to be brittle. A rigid backing is therefore used to protect the product from the risk of breakage.

Si consiglia di utilizzare collanti e stucchi epossidici in quanto la madreperla naturale è estremamente attaccabile da sostanze acide, per cui l'utilizzo di collanti cementizi renderebbe impossibile l'operazione di pulizia, generalmente effettuata con solventi a base acida. Particolare attenzione va quindi prestata nella cura e manutenzione del prodotto: essendo un mosaico naturale e non trattato, al fine di mantenere la superficie lucida, vanno utilizzati solo detergenti neutri, evitando le sostanze acide. La madreperla è composta quasi al 100% da carbonato di calcio e quindi viene sconsigliata l'applicazione in piscine e zone Wellness per la presenza di un'alta percentuale di cloro, così come non va esposta ai raggi del sole perché nel tempo potrebbe perdere in brillantezza e lucentezza. Il mosaico in madreperla è composto da elementi naturali, pertanto variazioni di colore e tonalità sono da considerarsi prerogativa del prodotto.

Epoxy adhesives and grouts should be used, since natural mother-of-pearl is extremely vulnerable to attach by acids; this means that the normal post-installation cleaning procedure with acid solvents, necessary with cement-based adhesives, is not possible. Special care must therefore be taken over care and maintenance: since this mosaic is natural and untreated, to keep the surface shiny only neutral cleaning products must be used, and never acids. Mother-of-pearl consists almost entirely of calcium carbonate, and therefore it should not be used in pools or spa areas where large amounts of chlorine are present; also, it should not be exposed to direct sunlight, as it could fade and lose its shine over time. Mother-of-pearl mosaic consists of natural materials, so variations in color and shade are one of this product's distinctive features.

INFORMAZIONI TECNICHE | TECH INFO

doro 10x10x4 mm | 15x15x4 mm | 20x20x4 mm

Mosaico in vetro e oro composto da tessere quadrate non perfettamente ortogonali, di spessore 4 mm, nei formati 10x10, 15x15 e 20x20 mm, alle quali è applicata una foglia d'oro a 24K (sottile lamina d'oro) protetta da una cartella di vetro. Le tessere sono montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate rispettivamente di 0,9, 1,4 e 1,9 mm circa. La collezione Doro è disponibile in 2 finiture chiamate: "A Pavimento" ☒ e "A Rivestimento" ☒*.

Glass and gold mosaic consisting of square chips 4 mm thick, not perfectly right-angled, in sizes 10x10, 15x15 and 20x20 mm, with a 24 carat gold foil (thin film of gold) applied, protected by a layer of glass. The chips are mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 0.9, 1.4 and 1.9 mm apart respectively. The Doro collection is available in 2 finishes, "A Pavimento" ☒ and "A Rivestimento" ☒.*

*

Nella finitura "A Pavimento" la foglia d'oro posta sul fondo, al di sotto della cartella di vetro, dona al mosaico un particolare effetto di profondità. Nella finitura "A Rivestimento" la foglia d'oro rimane in superficie per un risultato più compatto e materico.

In the "A Pavimento" finish, the gold foil applied to the back, underneath the glass layer, gives the mosaic a striking effect of depth. In the "A Rivestimento" finish, the gold foil is left on the surface, for a more compact, tactile look.

Mosaico di vetro fuso con aggiunta di ossidi coloranti, composto da tessere quadrate e bisellate, di spessore 4 mm, nel formato 20x20 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 327x327 mm in cui le tessere sono distanziate di circa 1,9 mm*.

Mosaic in fused glass with added oxide pigments, comprising bevelled square chips 4 mm thick, in size 20x20 mm, mounted on glass fibre mesh to form a sheet of 327x327 mm in which the chips are about 1.9 mm apart.*

*

In questo prodotto è ben evidente la lavorazione, detta sabbiatura, che dona al mosaico la tradizionale caratteristica "a punti". La superficie risulta leggermente porosa.

This product derives its distinctive appearance from the sand-blasting procedure which gives the mosaic the traditional "pitted" look.

onde 23x23x8 mm | 23x48x8 mm | 48x48x8 mm

Mosaico di vetro float composto da tessere quadrate e rettangolari, di spessore 8 mm, nel formato 23x23 mm, 23x48 mm e 48x48 mm montate su rete in fibra di vetro a formare un foglio di dimensioni 300x300 mm in cui le tessere sono distanziate di 2 mm circa. La superficie della tessera risulta ondulata, non piana e leggermente iridescente.

Float glass mosaic comprising square and rectangular chips 8 mm thick, in sizes 23x23 mm, 23x38 mm and 48x48 mm, mounted on glass fibre mesh to form a sheet of 300x300 mm in which the chips are about 2 mm apart. The surface of the chip is corrugated, not flat, and slightly iridescent.

èmetallo 23x23x8 mm | 23x48x8 mm | 25x28,9x8 mm | 24x13,9x8 mm

Mosaico composto da una lamina di acciaio inox AISI 316, di spessore 0,8 mm circa, applicata su supporto in gres porcellanato, a formare fogli di spessore 8 mm, montati su rete in fibra di vetro. Le tessere sono disponibili nel formato quadrato, rettangolare, esagonale e romboidale. L'utilizzo di questo prodotto è consentito anche in immersione.

Mosaic consisting of a sheet of foil of AISI 316 stainless steel about 0,8 mm thick, applied to a porcelain substrate, forming sheets 8 mm thick, mounted on glass fibre mesh. Chips are available in square, rectangular, hexagonal and diamond shapes. This product is also suitable for use constantly submerged in water.

* Possibili alterazioni con HCl, KOH. *Possible alterations with HCl, KOH.*

legno 23x23x8 mm | 23x48x8 mm

Mosaico di legno nobile composto da tessere quadrate, di spessore 8 mm, di dimensioni 23x23 mm e 23x48 mm*, montate su rete in fibra di vetro a formare un foglio di dimensioni 300x300mm in cui le tessere sono distanziate di 2 mm circa.

Hardwood mosaic comprising square chips 8 mm thick, in size 23x23 and 23x48 mm, mounted on glass fibre mesh to form a sheet of 300x300 mm in which the chips are about 2 mm apart.*

*

La tessera di mosaico in legno è composta nella sua parte superiore da 4 mm di legno nobile massello e nella sua parte inferiore da 4 mm di materiale realizzato con polimeri rigenerati e fibre di legno provenienti da fonti ecocompatibili. L'incollaggio tra le due sezioni viene effettuato con un adesivo a base poliuretanica bicomponente, resistente all'acqua, al calore e a numerosi agenti chimici. Le caratteristiche del supporto tecnico denotano un assoluto rispetto per l'ambiente e la sicurezza: assenza assoluta di formaldeide; resistenza al fuoco (classe E1); resistenza e stabilità dimensionale e strutturale; resistenza all'acqua di scorrimento come la parete di una doccia. Non resistente in continua immersione. 5 sono le essenze: Rovere, Rovere Sbiancato, Doussié, Noce Canaletto e Wengé. Le tessere sono progettate e realizzate in Italia. Il materiale deve essere stuccato con stucco epossidico. Trattandosi di un prodotto naturale, le variazioni di tono sono da considerarsi caratteristiche intrinseche del prodotto.

The top of the wooden mosaic chip consists of 4 mm of solid hardwood, while the bottom part comprises 4 mm of material made from regenerated polymers and wood fibre from environment-friendly sources. The two sections are glued together using a dual component polyurethane adhesive resistant to water, heat and a large number of chemicals. The characteristics of the technical substrate reflect the absolute prioritisation of the environment and safety: absolutely formaldehyde-free; fire resistant (class E1); dimensional and structural strength and stability; resistant to flowing water, as on the walls of shower enclosures. Not resistant to continuous immersion. There are 5 types of hardwood available: Oak, Bleached Oak, Doussié, Canaletto Walnut and Wengé. The chips are designed and produced in Italy. The joints in the material must be filled with an epoxy grout. Since this is a natural product, variations in shade are one of its intrinsic characteristics.

MATERIA | MATERIAL

Vetro sintetizzato | *Sintered glass*

FORMATI | SIZES

INFORMAZIONI TECNICHE | TECH INFO

area25 50x50x6 mm

Mosaico di vetro sinterizzato*, riciclato al 95%, composto da tessere quadrate non regolari e leggermente arrotondate, convesse, di spessore 6 mm circa, nel formato 50x50 mm, montate su rete in fibra di vetro a formare un foglio di dimensioni 318x318 mm in cui le tessere sono distanziate di 3,6 mm circa.

Mosaic made from 95% recycled sintered glass, comprising irregular, slightly rounded square chips 6 mm thick, in size 50x50 mm, mounted on glass fibre mesh to form a sheet of 318x318 mm in which the chips are about 3.6 mm apart.*

*

La sinterizzazione, ottenuta con la macinazione e la compressione del vetro, permette di ottenere un prodotto ad elevata resistenza meccanica e chimica particolarmente indicato nei pavimenti anche ad elevato traffico. Le dimensioni e lo spessore delle tessere possono subire delle variazioni così come leggeri avvallamenti. Piccolissime intrusioni di colore, non ortogonalità delle tessere e conseguenti fughe non rettilinee sono considerate caratteristiche intrinseche del prodotto. Nella versione Grip, antiscivolo, sono possibili significative variazioni di tono causate dal particolare processo produttivo legato alla finitura superficiale.

Sintering, a process in which the glass is ground and compressed, provides a product of excellent mechanical strength and chemical resistance, ideal for floors even with heavy traffic. The chips' size and thickness may vary, and slight depressions in the surface are also possible. Very small color intrusions, non-right angles in chips and the resulting crooked joints are intrinsic characteristics of this product. In the anti-slip Grip version, significant variations in shade are possible due to the special production processes required to obtain the surface finish.

giugiaro pulsar 21,5x10,5mm

Mosaico di vetro sinterizzato, riciclato al 95%, composto da tessere tridimensionali, non regolari e accostate, montate su rete in fibra di vetro. Lo spessore della tessera varia da 2 a 6 mm*.

*Mosaic made from 95% recycled sintered glass, comprising irregular three-dimensional chips placed close together without gaps, mounted on glass fibre mesh. Thickness of chips goes from 2 to 6 mm.**

*

La forma tridimensionale della tessera e il giunto pressoché inesistente prevedono una posa senza stuccatura. Ogni layout può venire realizzato sia in tinta unita (11 colori a disposizione) che a colori miscelati. Tutti i colori sono disponibili anche nella finitura Matt e Metal.

Due to the three-dimensional chip shape and virtual absence of joints, this material should be laid without grouting. Each layout can be created using both solid colors (11 colors available) and mixed colors. All colors are also available in matt and metal finishing.

14^{3/8}"x8^{9/32}"

INFORMAZIONI TECNICHE | TECH INFO

diamond

Mosaico in vetro cattedrale. È un mosaico composto da materie prime artistiche. È più sottile del vetro sabbato. Può essere colorato con tinte piene e piatte o avere una superficie stonalizzata e venata. Il design inusuale permette la stuccatura tono su tono per un effetto raffinato o a contrasto per dare alla composizione un carattere più eccentrico e di tendenza.

Vitreous mosaic of stained glass chips. It is an artistic raw material. It is thin by comparison with slab glass, may be colored and with a veined effect. The unusual design allows the use of grouts in tone-on-tone shades for a tasteful, refined effect, or in contrasting colors for a more eccentric, trendy composition.

*

Per il taglio del vetro cattedrale utilizzare un disco diamantato. Dopo aver inciso la superficie con una leggera pressione, il materiale si romperà facilmente in corrispondenza all'incisione fatta col diamante. Nel caso non si disponga di un diamante, è possibile utilizzare una pinza da mosaicista.

Use a diamond tool to cut stained glass. After the surface is scored, applying gentle pressure, the material will snap easily along the lines scored with the diamond tool. If a diamond tool is not available, mosaic cutting pliers can be used.

mosaics mixes&shades

LE TINTE UNITE COSTITUISCONO LA BASE PER CREARE ALTRI MOSAICI, COME AD ESEMPIO CROMIE - MELANGE DI TONIE NUANCE - E SFUMATURE - MIX CHE SFUMANO TRA TONI DIVERSI IN MODO FLUIDO. CROMIE E SFUMATURE SONO SUDDIVISE NELLE 10 FAMIGLIE COLORE. CROMIE E SFUMATURE SONO PROGETTATE E REALIZZATE IN ITALIA.

The solid colors are the basis for creating other mosaics, such as Cromie – a blend of tones and shades – and Sfumature – mixes that create an unbroken color transition. Cromie and Sfumature are subdivided into the 10 color families. Mixes & Shades are developed and crafted in Italy.

Mosaici di vetro formati da tessere delle collezioni Colore (Vetrina, Concerto, Perle, Aurora, Tanticolori, Doro), montati su rete in fibra di vetro. Ogni modulo è una composizione graduale di fogli miscelati composti da tessere in diverse percentuali e con disposizioni casuale.

Glass mosaic comprising chips from the Colore collections (Vetrina, Concerto, Perle, Aurora, Tanticolori, Doro), mounted on fibreglass mesh. Each module is a gradual composition of mixed sheets, made up of chips in varying percentages and with random arrangement.

**GLI STUCCHI EPOSSIDICI PER LA SIGILLATURA DELLE FUGHE
DANNO CONTINUITÀ CROMATICA, TONO SU TONO O A CONTRASTO,
ALLA SUPERFICIE POSATA.
LA GAMMA DI 27 STUCCHI VIENE SUDDIVISA NELLE 10 FAMIGLIE
COLORE.**

*Epoxy grouts for sealing joints provide the
installed surface with tone-on-tone or contrasting
color continuity.
The range of 27 grouts is subdivided into the 10
color families.*

colorepoxy

stucco epossidico | epoxy grouts

Colorepoxy è uno stucco decorativo a 2 componenti, a base di resine epossidiche, sabbie silicee e speciali componenti, caratterizzato da un particolare effetto traslucido. Disponibile in 27 colori, offre un'eccellente resistenza agli acidi ed un'ottima pulibilità: ideale per la stuccatura di tutti i tipi di mosaico, sia vetrosi che realizzati con materiali eterogenei. Colorepoxy nella sua versione Lux viene miscelato con glitter colorati metallizzati, per ottenere particolari effetti estetici con le stesse caratteristiche tecniche. CLASSIFICAZIONE SECONDO EN 13888: Colorepoxy è una malta reattiva (R) per fughe (G) di classe RG. CLASSIFICAZIONE SECONDO EN 12004: Colorepoxy è un adesivo reattivo (R) migliorato (2) di classe R2.

Colorepoxy is a bi-component decorative mortar composed of epoxy resins, silica sand and special components, with a distinctive translucent effect. Available in 27 colors, highly resistant to acid aggression and easy to clean, it is ideal for grouting mosaics of all kinds, both vitreous and in a variety of other materials. In the Lux version, Colorepoxy is mixed with metallic colored glitter to obtain particular effects with the same technical characteristics. CLASSIFICATION PER EN 13888: Colorepoxy is a reaction mortar (R) for grouting (G), class RG. CLASSIFICATION PER EN 12004: Colorepoxy is a reaction adhesive (R) with improved characteristics (2), class R2.

* _____ +
Per maggiori approfondimenti consultate la scheda Colorepoxy e il nostro Manuale tecnico con i consigli utili per una corretta posa del mosaico, disponibili sul sito www.mosaicopiu.it

DIALOGHI È UNA COLLEZIONE REALIZZATA IN ITALIA.

*Mosaic created from various materials – glass,
wood, metal, stone – reassembled in geometric
modular layouts designed by Francesco Lucchese.
Dialoghi is a made in Italy collection.*

dialoghi — Design Francesco Lucchese

Con la collezione Dialoghi scegliere un layout, selezionare le materie che compongono le tessere, e liberare la fantasia è il modo più semplice e soddisfacente per realizzare un originale decoro personalizzato. L'abaco ed il Design Tool sono gli strumenti attraverso i quali progettisti, designer ed inguaribili creativi possono mettere in pratica idee ed ispirazioni.

Il legno, la pietra, il metallo, il vetro si incontrano in preziose texture che arricchiscono le superfici e ispirano originali decori. La qualità è alla base di qualsiasi prodotto Mosaico+. Per questo la selezione delle materie prime è importante. Protagonista per eccellenza è il vetro dalla superficie ondulata ed iridescente o puro e trasparente; le tessere in metallo sono realizzate con una lamina d'acciaio in quattro formati e quattro finiture; le tessere in legno nobile provengono da doghe tagliate direttamente dai tronchi, poi essiccate, stabilizzate ed infine trattate con una speciale verniciatura, mentre le tessere in pietra sono incise dopo aver affinato la materia prima dalla roccia grezza naturale con una tradizionale lavorazione tutta italiana.

I layout sono la sintesi e il punto di incontro tra la memoria di un tessuto prezioso e la razionalità del progetto modulare. Sulla base della selezione delle tessere si può realizzare un originale pattern classico o contemporaneo, monocromo o a contrasto, oppure scegliere tra la vasta gamma dei minimali proposti a catalogo, frutto dell'esperienza progettuale di Francesco Lucchese.

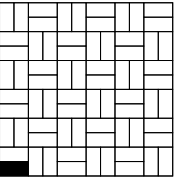

With the Dialoghi collection, choosing a texture, selecting the chip materials and giving imagination free rein is the simplest, most satisfying way of creating an original modular decorative motif. The abacus and the Design Tool are the instruments that enable architects, designers and incorrigible creative spirits to put their ideas and inspirations into practice.

Wood, stone and metal meet in exquisite textures that bring a rich beauty to surfaces and inspire original decorations. Quality is the basis for every Mosaico+ product. So the selection of raw materials is of crucial importance. Pride of place goes to glass, with a pure, transparent or corrugated, iridescent surface; metal chips are made from steel foil in four sizes and four finishes; the fine wood chips come from planks cut directly from logs that are then dried, stabilised and finally treated with a special varnish, while the stone chips are carved after the natural raw stone has been prepared and perfected using a traditional, all-Italian process.

Its layouts are the synthesis (or meeting-point) between the recollection of a precious fabric and the rationality of a module, and depending on the materials selected, classical or contemporary patterns can be created, in monochrome or in contrasting colors. As an alternative, customers can choose from the vast range of design units on offer, all reflecting Francesco Lucchese's vast experience in design.

LA DIVISIONE ARTISTICA MOSAICO+ SITUATA A SPILIMBERGO, STORICO EPICENTRO DELLA CULTURA E DELLA TRADIZIONE MUSIVA ITALIANA, SI OCCUPA DELLO SVILUPPO E DELLA REALIZZAZIONE DELLE COMPOSIZIONI PERSONALIZZATE SU RICHIESTA DEL CLIENTE. LE TECNICHE UTILIZZATE VANNO DAL MOSAICO ARTISTICO TRADIZIONALE A QUELLO COMPUTERIZZATO.

The Mosaico+ artistic division, located at Spilimbergo, the historic epicentre of Italian mosaic tradition and culture, develops and produces personalised compositions to the customer's order. The techniques used range from traditional artistic mosaic to computerised methods.

atelier

Mosaic Atelier raccoglie alcuni esempi della produzione più ricercata e prestigiosa di Mosaico+, realizzata secondo tecniche di lavorazione diverse che affondano le loro radici nella cultura e nella tradizione italiana del mosaico, ricca di esperienza e manualità artigianale. Lontano dall'essere semplici composizioni in mosaico, queste opere assumono rilevanza per l'unicità del pensiero e del gesto artistico che le ha generate. Il mosaico artistico trova posto nell'universo Mosaico+ collocandosi nella punta più elevata della personalizzazione e del prodotto di prestigio. Affiancare tessere, assemblare frammenti, selezionare materiali, adattare la giusta forma al giusto spazio con sapiente esperienza, sono le azioni che rendono unico ed irripetibile il progetto che viene realizzato. Un mosaico artistico non può che essere fatto a mano. Il valore del made in Italy si esprime nella qualità dei materiali, nella professionalità dei maestri mosaicisti e nella passione per la perfezione estetica che arricchisce ulteriormente ogni opera di Mosaico+.

Mosaic Atelier brings together examples of the most exquisite, luxurious Mosaico+ products, created with a variety of techniques rooted in the Italian mosaic culture and tradition, rich in experience and the priceless skills of master craftsmen. Definitely not mere mosaic compositions, these impressive works express unique creative thought and artistic flair. Within the Mosaico+ universe, artistic mosaic offers the highest level of customisation and prestige. Juxtaposing chips, assembling fragments, selecting materials, adapting an ideal shape to a specific space with the utmost expertise: these are the actions that make each project created unique and unrepeatable. An artistic mosaic can only be made by hand. Genuine Italian identity is expressed through quality materials, in the professionalism of master mosaicists and passion for aesthetic perfection that bestow added value on every Mosaico+ work.

I pannelli di Decor possono essere realizzati anche in dimensioni personalizzate.

Decor panels can also be produced in customised sizes.

pools' mosaic

IL MOSAICO IN VETRO PER LE SUE PARTICOLARI PROPRIETÀ DI RESISTENZA E INASSORBENZA È RIVESTIMENTO IDEALE PER SPAZI A CONTATTO CON L'ACQUA: BAGNI, SPA, PISCINE.

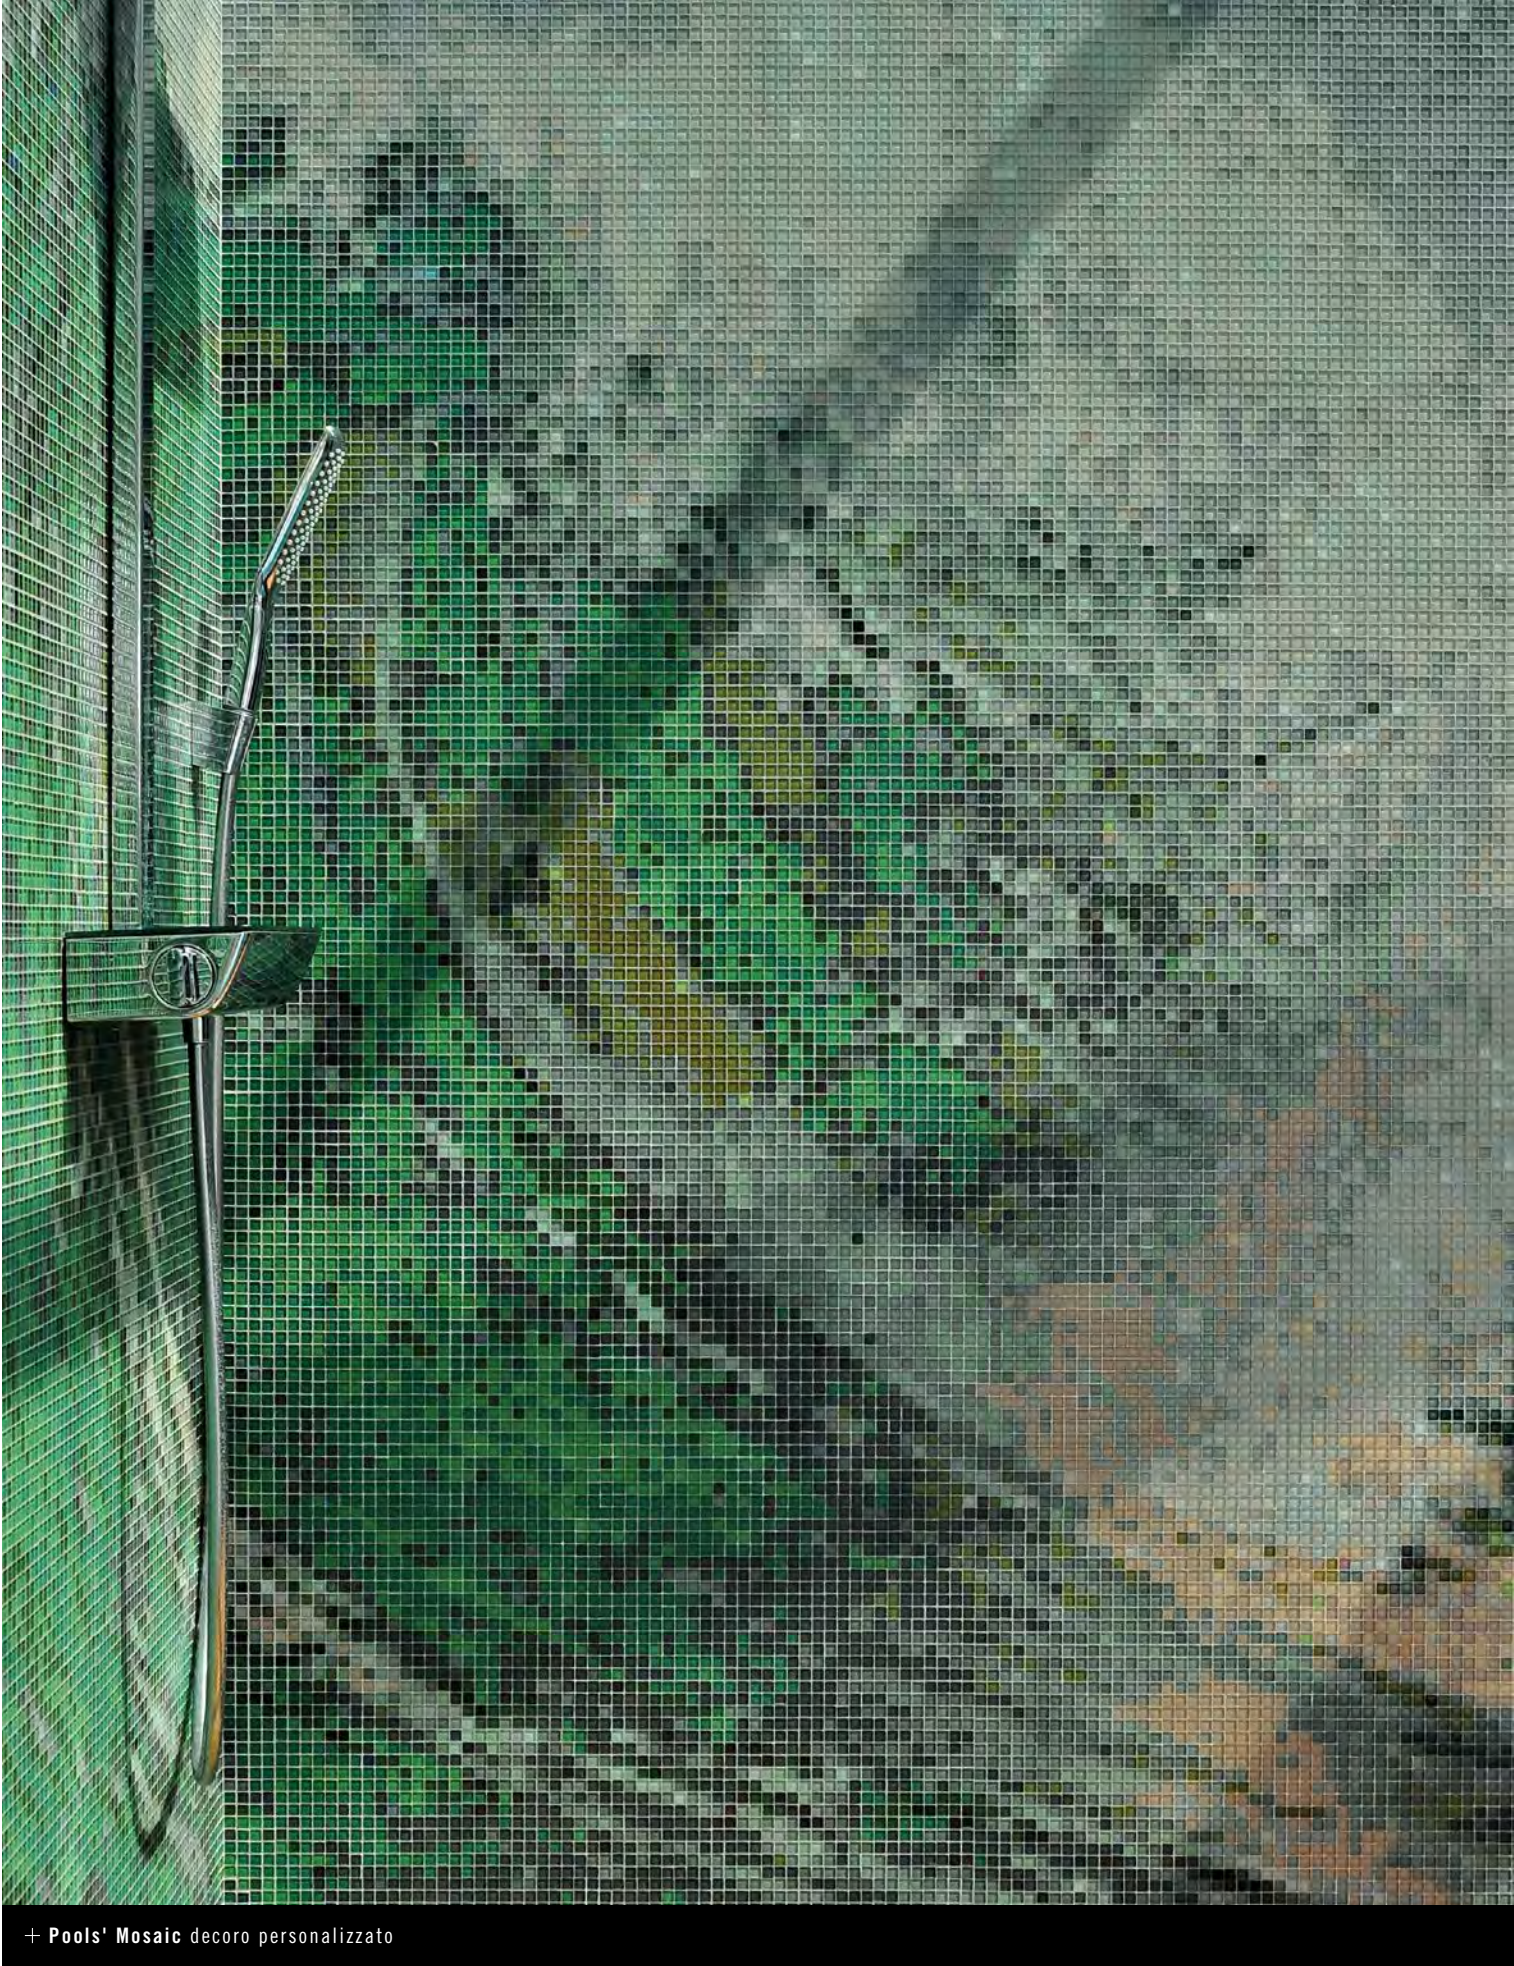

LE TESSERE DI PICCOLO FORMATO RIVESTONO CON FACILITÀ SUPERFICI CURVE ADDOLCENDO GLI ELEMENTI ARCHITETTONICI A CONTATTO CON L'ACQUA.

TUTTI I DECORI "POOL'S MOSAIC" SONO PROGETTATI E REALIZZATI IN ITALIA.

Since they are tough and non-absorbent, glass mosaics are the ideal covering for areas in contact with water: bathrooms, spas and pools.

As the chips are small they are easily able to cover curved surfaces, beautifying architectural features that come into contact with water.

Pool's mosaic decors are developed and crafted in Italy.

pools' mosaic 15x15x4 mm

Mosaici in vetro formati da tessere delle collezioni Concerto, Perle e Doro montati su rete in fibra di vetro, a realizzare composizioni modulari o pannelli singoli.

Glass mosaic comprising chips from the Concerto, Perle and Doro collections, mounted on fibreglass mesh to create modular or single panel compositions.

pools' mosaic 20x20x4 mm

Mosaici in vetro formati da tessere delle collezioni Aurore, Tanticolori, Perle e Doro montati su rete in fibra di vetro, a realizzare composizioni modulari o pannelli singoli.

Glass mosaic comprising chips from the Aurore, Tanticolori, Perle and Doro collections, mounted on fibreglass mesh to create modular or single panel compositions.

Il colore dell'acqua che rifrange il mosaico va dall'azzurino, all'effetto specchio, passando per il turchese, il verde e i blu. La scelta del mosaico più idoneo ad una piscina parte quindi dal cromatismo finale che si vuole ottenere.

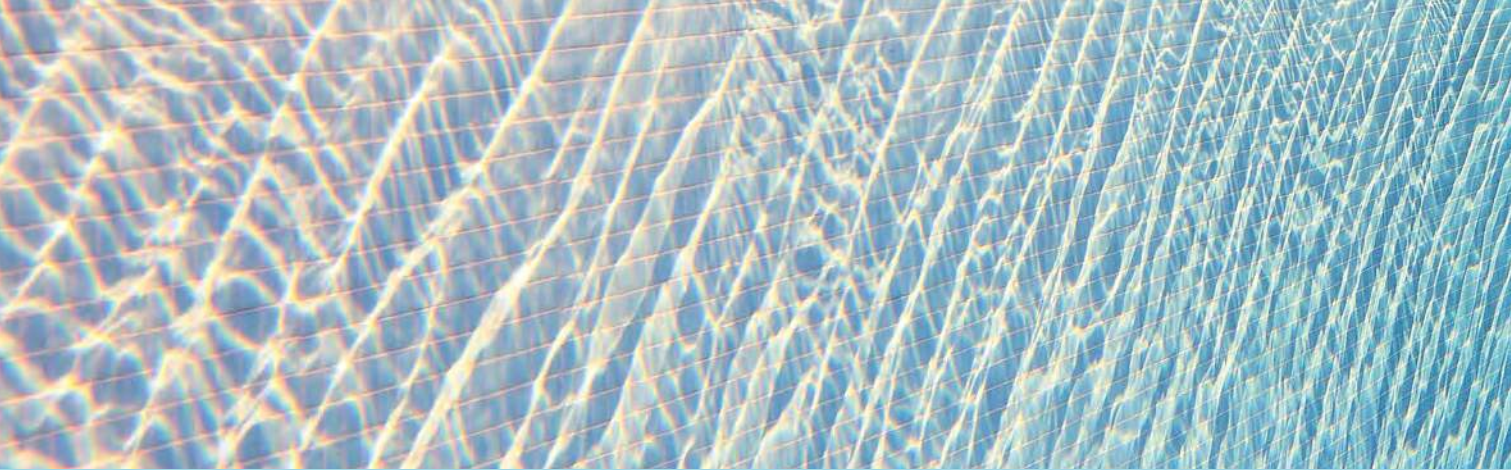

The color of the water that reflects the mosaic ranges from bright blue to a mirror effect by way of turquoise, green and dark blue. The choice of the best mosaic for a pool therefore starts from the final color required.

I pannelli di Decor possono essere realizzati anche in dimensioni personalizzate.

Decor panels can also be produced in customised sizes.

INFORMAZIONI TECNICHE | TECH INFO +

borders 20x20x4 mm

Mosaici in vetro formati da tessere delle collezioni Aurore, Tanticolori, Perle e Doro montati su rete in fibra di vetro, a realizzare composizioni modulari o pannelli singoli.

Glass mosaic comprising chips from the Aurore, Tanticolori, Perle and Doro collections, mounted on fibreglass mesh to create modular or single panel compositions.

Il colore dell'acqua che rifrange il mosaico va dall'azzurriino, all'effetto specchio, passando per il turchese, il verde e i blu. La scelta del mosaico più idoneo ad una piscina parte quindi dal cromatismo finale che si vuole ottenere.

The color of the water that reflects the mosaic ranges from bright blue to a mirror effect by way of turquoise, green and dark blue. The choice of the best mosaic for a pool therefore starts from the final color required.

MOSAICO+ HA SELEZIONATO ADESIVI CEMENTIZI ADATTI ALLA
POSA DEL MOSAICO SIA A PAVIMENTO CHE A RIVESTIMENTO.

*Mosaico+ has selected cementitious adhesives
suitable for installing mosaics on both floors
and walls.*

AS 75

* Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de santé par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).

adesivo cementizio speciale monocomprente superbianco

AS 75 è un adesivo cementizio (C) migliorato (2), resistente allo scivolamento (T) con tempo aperto allungato (E) deformabile (S1) di classe C2TE-S1 da utilizzare per la posa di pavimenti e rivestimenti in interno ed esterno di mosaici di vetro montati su carta o su rete, di qualsiasi spessore e peso; mosaico ceramico e vetroso su supporti cementizi e supporti impermeabilizzati con guaine cementizie impermeabilizzanti compatibili con adesivi cementizi; mosaici in sovrapposizione su ceramiche, marmette, pietre naturali; pavimenti soggetti a traffico pesante; mosaici su pannelli in cartongesso (preventivamente trattati con PRIMER apposito) e per la posa su pavimenti riscaldanti. AS 75 è un adesivo in polvere bianchissimo, a base di cemento, polvere di quarzo a granulometria selezionata, polvere di Marmo di Carrara, resine sintetiche, additivi, formulato in modo da ottenere ottime caratteristiche applicative e forte adesione nella posa all'interno ed all'esterno.

super-white single-component special cementitious adhesive

AS 75 is an improved (2), slip-resistant (T), deformable (S1) class C2TE-S1 cementitious (C) adhesive with extended open time (E) for use for the indoor and outdoor installation of paper- and mesh-mounted glass mosaics of any thickness and weight; ceramic and glass mosaic on cementitious substrates and substrates with cementitious waterproofing membranes compatible with cementitious adhesives; for overlaying mosaics on ceramic and marble tiles and natural stones; for floors subjected to heavy traffic; for mosaics on plasterboard panels (pre-treated with the specific PRIMER) and for installation on heated floors. AS 75 is a super-white powder adhesive containing cement, quartz powder with selected particle size, powdered Carrara Marble, synthetic resins and additives formulated for excellent applicational properties and strong bonding indoors and outdoors.

Komponenten-Spezialzementkleber superweiß

AS 75 ist ein verformbarer (S1) zementhaltiger Klebemörtel (C) für erhöhte Anforderungen (2) mit verringertem Abrutschen (T) und verlängerter Offenzeit (E) entsprechend der Klasse C2TE-S1 zur Verwendung bei Verlegung von Glasmosaik, auf Papier oder Netz verklebt, in allen Dicken und Gewichten an Wand- und Bodenflächen im Innen- und Außenbereich, bei Verlegung von Keramik- oder Glasmosaik auf zementhaltigen Untergründen und auf mit zementhaltigen Dichtungsbahnen abgedichteten Untergründen, die mit zementhaltigen Klebemörteln kompatibel sind, bei Verlegung von Mosaik auf Keramik-, Terrazzo- und Natursteinplatten, Verlegung von stark beanspruchten Bodenbelägen, bei Verlegung von Mosaik auf Gipskartonplatten (mit spezieller Grundierung vorbehandelt) und bei Verlegung auf Heizestrich. AS 75 ist ein pulverförmiger reinweißer Klebemörtel auf der Basis von Zement, Quarzpulver in verschiedenen Korngruppen, Carrara-Marmorpulver, Kunstharzen und Zuschlagstoffen, mit ausgezeichneten Auftrags- und Hafteigenschaften im Innen- und Außenbereich.

mortier-colle spécial composant unique (base ciment) super-blanc

AS 75 est un mortier-colle à base de ciment (C) amélioré (2), résistant au glissement (T) avec un temps ouvert allongé (E), déformable (S1) et classé C2TE-S1 pour la pose au sol et en revêtement mural à l'intérieur et à l'extérieur de mosaïques en verre montées sur papier ou sur filet, quels que soient l'épaisseur et le poids ; la pose de mosaïques en céramique et en verre sur supports en ciment et sur supports imperméabilisés par membranes imperméabilisantes à base de ciment compatibles avec les mortiers-colles à base de ciment ; la pose de mosaïques en superposition sur carreaux en céramique, sur dalles en marbre et sur pierres naturelles ; la pose de sols à trafic intense ; la pose de mosaïques sur panneaux en placoplâtre (traités au préalable avec un PRIMAIRE prévu à cet effet) et la pose sur planchers chauffants. AS 75 est une colle en poudre ultra-blanche à base de ciment, de sable de quartz de granulométrie sélectionnée, de poudre de marbre de Carrare, de résines synthétiques et d'additifs. Elle est formulée pour obtenir d'excellentes caractéristiques d'application et une forte adhérence pour la pose en intérieur et en extérieur.

adesivo cementoso especial de un solo componente superblanco

AS 75 es un adhesivo cementoso (C) mejorado (2), resistente al deslizamiento (T) y con un tiempo abierto ampliado (E) deformable (S1) de la clase C2TE-S1 que se utiliza para la colocación en pavimentos y revestimientos, tanto en interiores como en exteriores, de mosaicos vitreos montados sobre papel o sobre malla, de cualquier grosor y peso; de mosaico cerámico y vítreo sobre soportes cementosos y soportes impermeabilizados con vainas cementosas impermeabilizantes compatibles con adhesivos cementosos; de mosaicos superpuestos sobre cerámica, baldosas de mármol y piedras naturales; de pavimentos sometidos a tráfico pesado; de mosaicos sobre placas de cartón yeso (previamente tratadas con una IMPRIMACIÓN específica) y para la colocación sobre pavimentos calefactados. AS 75 es un adhesivo de polvo blanquísimo, a base de cemento, polvo de cuarzo de granulometría selecta, polvo de mármol de Carrara, resinas sintéticas y aditivos, formulado para conseguir unas excelentes características de aplicación y una firme adherencia en el revestimiento tanto de superficies interiores como exteriores.

Специальный однокомпонентный супербелый цементный клей

AS 75 - это улучшенный (2) цементный клей (C) без вертикального сползания (T), с увеличенным временем нахождения на воздухе (E), высокоэластичный (S1), класса C2TE-S1. Применяется для наружных и внутренних работ по напольной укладке и облицовке стен стеклянной мозаикой, наклеенной на бумагу или на сетку, любой толщины и веса; для укладки керамической и стекловидной мозаики на цементные основы и на основы, изолированные при помощи гидроизоляционных цементных мембран, совместимых с цементными клеями; для укладки мозаики поверх керамики, плитки из мраморной крошки, натурального камня; для укладки полов с интенсивным движением; для укладки мозаики на гипскартонные панели (предварительнообработанные специальной ГРУНТОВКОЙ) и для укладки на теплые полы. AS 75 - это супербелый порошоквый клей на основе цемента, кварцевого порошка отобранной зернистости, порошка каррарского мрамора, синтетической смолы, добавок. Он составлен таким образом, чтобы гарантировать отличные характеристики применения и надежное прилипание при выполнении как внутренних, так и наружных работ.

AS 100 | AS LATEX

adesivo cementizio bianco

AS 100 è un adesivo cementizio (C) migliorato (2), resistente allo scivolamento (T) e con tempo aperto allungato (E) di classe C2TE da utilizzare per l'incollaggio a parete ed a pavimento, in interni ed esterni, di mosaici vetrosi, ceramici e di marmo montati su carta o su rete, di qualsiasi spessore o peso. AS 100 è una polvere particolarmente fine e bianca composta da cemento, inerti selezionati, resine sintetiche ed additivi speciali da impastare con il corretto quantitativo di acqua. AS 100 miscelato con AS LATEX può essere utilizzato per l'incollaggio di mosaico vetroso in piscina su intonaco o su supporto impermeabilizzato con membrane impermeabilizzanti a base cementizia e per l'incollaggio di mosaico in interni, su rivestimenti ceramici esistenti.

white cementitious adhesive

AS 100 is an improved (2) cement-based (C) adhesive, with anti-slip properties (T) and with extended open time (E), in class C2TE, for use for glue-mounting vitreous, ceramic and marble mosaics on paper or mesh backing, of any thickness or weight, on indoor or outdoor walls and floors. AS 100 is a particularly fine white powder consisting of cement, selected aggregates, synthetic resins and special additives, for mixing with the right amount of water. AS 100 can be used mixed with AS LATEX for glue-mounting vitreous mosaics in swimming-pools, on plaster or on cement-based substrates with waterproof barrier membrane, and for gluing mosaics over existing ceramic coverings indoors.

weißer zementärer klebemörtel

AS 100 ist ein zementhaltiger (C) Klebemörtel für erhöhte Anforderungen mit zusätzlichen Kennwerten (2), verringertem Abrutschen (T) und verlängerter offener Zeit (E) entsprechend der Klasse C2TE für das Verkleben von Glas-, Keramik- und Marmormosaiken auf Papier und Netz in allen Dicken und Gewichten an Wand- und Bodenflächen im Innen- und Außenbereich. AS 100 ist ein feinkörniges, weißes Pulver aus Zement, ausgewählten Inertstoffen, Kunstharzen und Zusatzstoffen zum Anrühren mit einer entsprechenden Menge Wasser. AS 100 kann, gemischt mit AS LATEX, für das Verkleben von Glasmosaik in Schwimmbecken auf Putz oder wasserdichten Untergründen mit Dichtmembranen auf zementhaltiger Basis oder für das Verkleben von Mosaik auf keramischen Altbelägen im Innenbereich verwendet werden.

mortier colle blanc

AS 100 est un mortier-colle à base de ciment (C) amélioré (2), résistant au glissement (T) à temps ouvert allongé (E) de classe C2TE pour le collage sur murs et sols intérieurs et extérieurs de mosaïques en verre, céramique et marbre montées sur feuille ou filet, quelque en soit l'épaisseur ou le poids. AS 100 est une poudre particulièrement fine et blanche, composée de ciment, matières inertes sélectionnées, résines synthétiques et additifs spéciaux à gâcher avec la quantité d'eau nécessaire. Mélangé à AS LATEX, AS 100 est destiné au collage dans les piscines de mosaïques en verre sur enduit ou support imperméabilisé par des membranes imperméabilisantes à base de ciment, et au collage de mosaïques en intérieur, sur des revêtements céramiques existants.

adesivo cementoso blanco

AS 100 es un adhesivo cementoso (C) mejorado (2), resistente al deslizamiento (T) y con tiempo abierto ampliado (E) de clase C2TE que se emplea para el encolado en pared y en pavimento, tanto en espacios interiores como exteriores, de mosaicos vitreos, cerámicos y de mármol montados sobre papel o sobre malla, de cualquier grosor o peso. AS 100 es un polvo muy fino y blanco que se compone de cemento, inertes selectos, resinas sintéticas y aditivos especiales que amasar con la cantidad de agua oportuna. AS 100 mezclado con AS LATEX se puede utilizar para el encolado de mosaico vítreo en piscinas sobre revoque o sobre soporte impermeabilizado con membranas impermeabilizantes a base de cemento, así como para el encolado de mosaicos en superficies interiores, sobre revestimientos cerámicos ya existentes.

белый цементный клей

AS 100 - это улучшенный (2) цементный клей (C) без вертикального сползания (T) и с увеличенным временем нахождения на воздухе (E) класса C2TE. Применяется для наклеивания мозаики любой толщины и массы, выполненной из стекла, керамики и мрамора на бумажной или сетчатой основе, на внутренние или наружные стены или полы. AS 100 представляет собой очень тонкий, белый порошок, состоящий из цемента, отборного наполнителя, синтетических смол и специальных добавок, который должен смешиваться с надлежащим количеством воды. При смешивании AS 100 с AS LATEX полученный раствор можно использовать для наклеивания стекловидной мозаики в бассейнах на штукатурку или на основу, загерметизированную гидроизолирующими мембранами на цементной основе, а также для наклеивания мозаики в помещениях, на существующую керамическую облицовку.

condizioni generali di fornitura

1. PAGAMENTI

I pagamenti dovranno avvenire esclusivamente presso il domicilio del creditore. I termini e le modalità di pagamento indicate nella conferma d'ordine e/o nella fattura sono da intendersi perentori ed essenziali. Pertanto, in caso di mancato pagamento nel termine assegnato, l'Acquirente dovrà intendersi costituito in mora a tutti gli effetti di legge e saranno dovuti interessi convenzionali per il ritardo nella misura annua prevista dal D. Lgs. n°231/02. Al termine di ogni anno solare Mosaico+ S.r.l. sarà autorizzata ad emettere nota di addebito per gli eventuali interessi fino ad allora maturati. Qualora fosse convenuta per ogni fattura una dilazione di pagamento in rate successive ovvero più fatture con scadenze successive, il mancato pagamento di anche una sola delle scadenze comporterà l'automatica decadenza dell'Acquirente dal beneficio del termine concesso e pertanto questi dovrà provvedere all'immediato pagamento di tutta la merce ricevuta.

I costi per effettuare il pagamento (per emissione Ri.Ba., fissato bollato delle cambiali, presentazione effetti ecc.) saranno a carico dell'acquirente salvo diverso accordo scritto. La venditrice potrà sospendere l'esecuzione della prestazione se le condizioni patrimoniali dell'Acquirente saranno divenute tali da porre in pericolo il conseguimento della controprestazione.

Si intendono casi di evidente pericolo l'apertura di procedure concorsuali, la messa in liquidazione dell'azienda, l'esistenza di protesti, pignoramenti, iscrizione di ipoteche giudiziarie e volontarie, revoca degli affidamenti bancari, insolvenze.

2. IMBALLO

Il materiale è consegnato con imballo standard idoneo al trasporto. Diverso imballo verrà addebitato al costo e dovrà essere concordato per iscritto.

3. CONSEGNA E TRASPORTO

La consegna verrà effettuata franco fabbrica ai sensi dell'art. 1510 c.c. e la merce dovrà essere là ritirata dall'Acquirente.

Qualora, su richiesta dell'Acquirente, la venditrice provvedesse ad inviare la merce a mezzo di un proprio veicolo ovvero di un vettore o di uno spedizioniere, la merce si intenderà comunque consegnata franco stabilimento e viaggerà a rischio e pericolo dell'Acquirente. Mosaico+ S.r.l. dovrà intendersi autorizzata a concludere il contratto con tali soggetti nell'interesse dell'Acquirente e con oneri e spese a carico di quest'ultimo.

Pertanto in tutte le ipotesi sopra descritte, qualora si verificassero furti e/o danni alla merce trasportata, la venditrice non ne sarà ritenuta responsabile. I prezzi indicati nei cataloghi si intendono franco stabilimento di Casalgrande (RE), I.V.A. esclusa.

I termini di consegna indicati nella proposta e/o nella conferma d'ordine dovranno intendersi indicativi e non tassativi. Ogni diverso accordo, per essere efficace, dovrà risultare per iscritto.

4. GARANZIA

Il materiale consegnato è garantito per eventuali vizi o mancanze di qualità per mesi 12 dal momento della consegna.

Mosaico+ S.r.l. non è responsabile per vizi e/o difetti che dovessero essere imputabili alle operazioni di posa.

4 Bis. Contestazioni

Ai sensi dell'art. 1495 c.c., eventuali vizi, a pena di decadenza, dovranno essere formalmente denunciati a mezzo raccomandata a.r. entro 8 (otto) giorni dalla consegna del materiale ovvero, nel caso di vizi occulti, dalla scoperta. In caso di denuncia entro i termini di cui sopra, la venditrice sarà tenuta esclusivamente a sostituire la merce difettosa nel minor tempo possibile e non risponderà per alcun motivo di danni di qualsiasi natura subiti dall'Acquirente.

La segnalazione di reclamo per eventuali danni arrecati alla merce durante il trasporto, sia a mezzo vettore o spedizioniere che mittente, dovrà essere effettuata al momento della consegna e indicata sul documento di trasporto e controfirmata dal conducente del mezzo.

In ogni caso, i materiali dovranno essere controllati prima della posa in opera e non si accetteranno contestazioni su materiale già installato. In particolare, la venditrice non risponderà per ritardi di consegna dell'opera da parte dell'Acquirente o per costi relativi al montaggio ed allo smontaggio di merce difettosa. Qualora le procedure sopra esposte non siano espletate nei modi e nei termini stabiliti, il reclamo non sarà accettato e l'Acquirente decadrà dal diritto alla garanzia.

Ai sensi dell'art. 1462 c.c. l'Acquirente non potrà opporre alcuna eccezione al fine di evitare o ritardare l'adempimento alle proprie obbligazioni.

5. TOLLERANZE

Mosaico+ S.r.l. specifica espressamente che il colore delle tessere di mosaico non è mai uniforme e il riferimento ai campionari è puramente indicativo e suscettibile di variazioni nell'ambito delle tolleranze di fabbricazione del colore stesso. Così come indicative e suscettibili di variazione sono le percentuali dei colori nelle cromie.

La presenza di toni diversi mescolati sono, ad insindacabile giudizio e valutazione del produttore, disomogeneità dipendenti anche dal tipo di colore e ne sono una sua peculiare caratteristica. Precisa che fra le diverse partite di materiale sono possibili variazioni di tonalità che rientrano nei limiti di tolleranza della produzione, così come piccole inclusioni e/o scheggiature in alcune tessere.

Le dimensioni delle tessere sono indicative delle misure nominali al netto delle tolleranze di produzione. Altresi dicasi per le fughe varianti in funzione della dimensione reale della tessera. Alcune collezioni per la loro specificità assumono, con la irregolarità della tessera, la valenza di mosaico artistico.

Pertanto l'Acquirente dichiara di essere a conoscenza che i prodotti possano avere variazioni di tonalità e/o di altre caratteristiche sopra menzionate, oltre ad eventuali microporosità e di accettare tali caratteristiche.

La venditrice non risponde di variazioni di colori/

toni, per ordini formulati o eseguiti in tempi diversi. Il mosaico in legno e i mix contenenti tessere in legno devono essere tassativamente stuccate con stucco epossidico maturato almeno 7 (sette) giorni prima di essere a contatto con l'acqua, e non possono essere posate su supporti o superfici in immersione frequente o costante (p.es.: piatto doccia, vasca da bagno ecc). Il materiale, conservato negli imballi originali e integri, deve essere protetto dalla pioggia o dall'eccessiva umidità sia durante il trasporto che nello stoccaggio in cantiere o in magazzino.

6. RESI

Non si accettano resi se non espressamente autorizzati per iscritto dalla direzione di Casalgrande (RE). Il documento di reso dovrà contenere i riferimenti del documento di trasporto emesso al momento della consegna.

I materiali resi dovranno essere contenuti negli imballi originali, integri e spediti in porto franco a rischio dell'Acquirente, se non diversamente concordato.

Al ricevimento della merce, e successivamente alla verifica della stessa, la venditrice emetterà relativa nota di accredito pari al 90% del valore della merce.

6. Bis

Vorrete prendere nota che per prodotti personalizzati e/o realizzati su specifiche da voi fornite e indicati nella conferma d'ordine, non saranno accettati resi, né variazioni in diminuzione. Pertanto vi verrà addebitato il relativo costo a prescindere dal loro ritiro.

7. PROPRIETÀ

L'Acquirente acquisterà la proprietà del materiale con la consegna della merce ai sensi dell'art. 3 che precede. Se la merce sarà consegnata a mezzo vettore, l'effetto traslativo della proprietà si verificherà in ogni caso con la consegna al vettore o allo spedizioniere.

8. FORO COMPETENTE

Ogni controversia relativa all'esistenza, validità, interpretazione, esecuzione e/o risoluzione dei contratti di compravendita cui si applicheranno le presenti condizioni generali sarà disciplinata dalla legge italiana e devoluta alla giurisdizione italiana.

In particolare sarà devoluta unicamente ed esclusivamente all'Autorità Giudiziaria del Foro di Milano.

**Mosaico+ S.r.l. a socio unico
via San Lorenzo 58/59
42013 Casalgrande (RE)
Italy**

general conditions of sale

1. PAYMENTS

Payments shall only be made to the creditor's domicile. The payment terms and procedures stated in the order confirmation and/or invoice are essential and binding. Therefore, in the event of failure to pay within the stated term, the Purchase shall be considered in default to all legal intents and purposes and interest shall be due on the overdue amount at the annual rate specified by Italian Decree Law n. 231/02. At the end of each calendar year Mosaico+ S.r.l. shall be authorised to issue a debit note for any interest accrued up to that date.

In the event that payment by instalments is agreed for each invoice, or several invoices with due dates in sequence are issued, failure to pay even just one instalment or invoice shall automatically lead to forfeiture on the Purchaser's part of all right to make delayed payments, and therefore it shall be obliged to make immediate payment for all the goods received.

All costs relating to the payment (issue of bank payment orders, stamp duty on bills of exchange, presentation of bills, etc.) shall be for the purchaser's account unless otherwise agreed.

The vendor shall be permitted to cease the supply of goods in the event that the Purchaser's financial situation is such as to cast doubt on its ability to pay.

Indications of financial unsoundness shall include the opening of bankruptcy procedures, placing of the company in liquidation, protested bills, attachments, the registration of mortgages by court order and voluntary mortgages, the cancellation of bank credit lines and insolvency.

2. PACKAGING

Material shall be delivered with standard packaging suitable for the means of transport. Any other form of packaging shall be charged for at cost and shall be agreed in writing.

3. DELIVERY AND TRANSPORT

Goods shall be delivered ex-works under art. 1510 of the Italian Civil code and the Purchaser shall collect them from the vendor's premises.

In the event that, on the Purchaser's request, the vendor sends the goods using its own vehicle or through a carrier or forwarding agent, the goods shall still be considered delivered ex-works and shall travel at the Purchaser's risk.

Mosaico+ S.r.l. shall be authorised to enter into the contract with the carrier or forwarding agent in the Purchaser's interest, with costs and expenses for the latter's account.

Therefore, in all the hypotheses described above, in the event of theft of and/or damage to the transported goods, the vendor shall not be held responsible.

The prices stated in the catalogues are ex-works Casalgrande (Reggio Emilia, Italy), not including V.A.T.

The delivery times stated in the order proposal and/or confirmation of order are guideline and not binding. All agreements to the contrary must be confirmed in writing.

4. WARRANTY

The material delivered is guaranteed against defects or failure to meet quality standards for 12 months from the moment of delivery.

Mosaico+ S.r.l. shall not be held responsible for faults and/or defects caused by the installation operations.

4 Bis. Complaints

Under art. 1495 of the Italian Civil Code, any faults shall be formally reported by registered letter with return receipt within 8 (eight) days after delivery of the material, or in the case of hidden defects, after their discovery. In the event of complaints made within the aforesaid terms, the vendor shall be obliged solely to replace the faulty goods in the shortest possible time, and shall not be liable for damage of any kind incurred by the Purchaser, for any reason. Complaints for damage to goods in transit, whether by carrier, forwarding agent or the sender, shall be made at the moment of delivery and reported on the transport document, with the driver's signature in confirmation.

In all cases, materials must be inspected before installation, and no complaints shall be accepted with regard to material already installed.

The vendor shall not be responsible for delays in consignment of the completed works by the Purchaser, or costs relating to the installation and/or removal of defective goods. In the event that the procedures set out above are not completed by the stated procedures and within the stated times, the complaint shall not be accepted and the Purchaser shall forfeit all warranty entitlement.

Pursuant to art. 1462 of the Italian Civil Code, the Purchaser shall not make complaints for the purposes of avoiding or delaying the fulfilment of its obligations.

5. TOLERANCES

Mosaico+ S.r.l. specifically states that the colour of mosaic chips is never uniform and reference to samples is purely guideline and subject to variation within the colour's manufacturing tolerance range. The colour percentages stated for the various shades are also purely guideline and subject to variation.

The presence in the materials supplied of a mixture of different shades, at the absolute discretion of the manufacture, provides a degree of variation arising from the type of colour, of which it is a distinctive characteristic.

The manufacturer points out that variations of shade, within the tolerance limits for production, are possible between different lots of material, and small inclusions of different materials and/or splintering of some chips are also normal features. Stated chip sizes refer to nominal dimensions net of production tolerances. The same applies to joint widths, which vary depending on the actual chip size. In some collections, the irregularity of the chips used is crucial to the artistic value of the mosaic.

Therefore, the Purchaser declares that it is aware that the products may have slight variations in shade and/or other characteristics referred to above, as well as possible microporosity, and accepts these features.

The vendor shall not be liable for variations in

colors/shades in the event of orders placed or fulfilled at different times. Wood mosaics, and mixes which contain wooden chips, must only be grouted with epoxy grout left to cure for at least 7 (seven) days before contact with water, and cannot be laid or substrates or surfaces which are often or always wet (e.g.: shower trays, bathtubs, etc.). The material, in its intact original packaging, must be protected from rain or excessive damp during both transport and storage on the installation site or in the warehouse.

6. RETURNS

No returns of goods shall be accepted unless specifically authorised in writing by the management at Casalgrande (Reggio Emilia, Italy). The return document shall contain the references to the transport document issued on delivery of the goods. Returned materials shall be shipped in their original undamaged packaging, freight prepaid, at the Purchaser's risk, unless otherwise agreed. On receipt and subsequent inspection of the goods, the vendor shall issue the relative credit note for 90% of their value.

6. Bis

Kindly note that no reductions in quantities or returns will be accepted with regard to customised products and/or products manufactured to your specifications stated as such in the order confirmation. Their cost will therefore be charged to your account regardless of whether or not you take delivery of them.

7. PROPERTY RIGHTS

The Purchaser shall acquire ownership of the material on delivery of the goods pursuant to art. 3 above.

If the goods are delivered by a carrier, the transfer of ownership shall still occur on consignment to the carrier or forwarding agent.

8. COMPETENT LAW COURT

All disputes concerning the existence, validity, interpretation, fulfilment and/or termination of the sales contracts to which these general conditions apply shall be governed by Italian law and subject to the jurisdiction of the Italian courts. The judicial authorities of the Milano Law Court shall have sole jurisdiction.

allgemeine lieferbedingungen

1. ZAHLUNGEN

Die Zahlungen haben ausschließlich am Domizil des Gläubigers zu erfolgen. Die auf der Auftragsbestätigung u/o Rechnung angegebenen Zahlungsfristen und –modalitäten sind als endgültig und essentiell zu verstehen. Daher ist der Käufer bei Nichtzahlung innerhalb der angegebenen Fristen mit voller rechtlicher Wirkung in Verzug gesetzt und muss für die Verzögerung gemäß it. Gesetzesdekret N° 231/02 vertragliche Zinsen zahlen. Am Ende eines jeden Kalenderjahrs, wird Mosaico+ S.r.l. befugt sein, für die bis zu jenem Zeitpunkt angefallenen Zinsen eine Lastschrift auszustellen.

Sollte für jede Rechnung ein Zahlungsaufschub mit anschließenden Ratenzahlungen oder mehrere Rechnungen mit anschließenden Verfalldaten vereinbart worden sein, so werden dem Käufer bei Nichtzahlung an auch nur einem der Fälligkeitstermine, automatisch die ihm gewährte Fristvorteile aberkannt, und er muss unverzüglich die Zahlung für die empfangene gesamte Ware leisten. Die Kosten für die Zahlungsdurchführung (Ausstellung von Bankquittungen, Wechselmarkensteuer, Wechselvorlage usw.) sind, vorbehaltlich anderer schriftlicher Vereinbarungen, zu Lasten des Käufers. Der Verkäufer kann seine Leistungen einstellen, wenn die Vermögenslage des Käufers so ist, dass die Fortführung der Gegenleistung in Gefahr gestellt ist. Als Fälle von offensichtlicher Gefahr sind die Eröffnung von Konkursverfahren, Firmenliquidation, Vorliegen von Protesten, Pfändungen, Eintragung von Zwangs- und Vertragshypotheken, Aufhebung der Bankgarantien, Zahlungsunfähigkeiten zu verstehen.

2. VERPACKUNG

Das Material wird mit einer für den Transport geeigneten Standardverpackung geliefert. Eine andere Verpackung wird zum Kostenpreis belastet und muss schriftlich vereinbart werden.

3. LIEFERUNG UND TRANSPORT

Die Lieferung erfolgt gemäß Art. 1510 c.c. (it. BGB) frei Werk, und die Ware ist dort vom Käufer abzuholen. Sollte der Verkäufer die Ware auf Anfrage des Käufers mit einem eigenen Fahrzeug oder mit dem eines Transportunternehmens oder Spediteurs versenden, versteht sich die Ware in jedem Fall als frei Werk geliefert und reist auf Gefahr des Empfängers.

Mosaico+ S.r.l. hält sich in diesem Fall als befugt, den Vertrag im Interesse des Käufers mit jenen Unternehmen abzuschließen. Die Spesen und Abgaben gehen in diesem Fall zu Lasten des Käufers. Der Verkäufer ist bei Eintreten von Diebstählen u/o Schäden an der transportierten Ware in allen oben beschriebenen Fällen nicht haftbar zu machen. Die in den Katalogen aufgeführten Preise verstehen sich frei Werk Casalgrande (Reggio Emilia, Italien), MWST ausgeschlossen. Die im Angebot u/o Auftragsbestätigung angegebenen Lieferfristen sind als richtungsweisend und nicht bindend zu verstehen. Jede anderweitige Vereinbarung, muss, um wirksam zu sein, schriftlich erfolgt sein.

4. GARANTIE

Das gelieferte Material hat, was eventuelle Mängel oder Qualitätsmangel betrifft, eine Garantiezeit von 12 Monaten.

Mosaico+ S.r.l. ist nicht für Mängel u/o Fehler, die auf die Verlegung zurückzuführen sind, haftbar.

4 Bis. Beanstandungen

Gemäß Art. 1495 c.c. (it. BGB), müssen eventuelle Mängel, innerhalb von 8 (acht) Tagen nach Lieferung des Materials oder bei verborgenen Fehlern nach ihrer Entdeckung, bei sonstigem Verfall, formell per Einschreibebrief mit Rückantwortschein angezeigt werden.

Bei Anzeige innerhalb der vorgenannten Fristen, muss der Verkäufer ausschließlich die fehlerhafte Ware so schnell wie möglich ersetzen und haftet aus keinerlei Grund für irgendwelche vom Käufer erlittene Schäden.

Die Anzeige einer Beanstandung für eventuelle während des Transports entstandenen Warenschäden, sei es beim Transport durch ein Transportunternehmen, Spediteur oder den Absender, muss bei der Auslieferung erfolgen und auf dem Fahrer des Fahrzeugs gegengezeichneten Transportschein angegeben sein. Die Materialien müssen in jedem Fall vor ihrer Verlegung überprüft werden, und es werden keine Beanstandungen für bereits installiertes Material akzeptiert. Insbesondere haftet der Verkäufer nicht für Lieferverzögerungen bei den Arbeiten von Seiten des Käufers oder für Kosten, welche die Montage/Demontage fehlerhafter Ware betreffen. Sollten die obenangeführten Verfahren nicht auf die festgesetzten Art und Weise und innerhalb der vereinbarten Fristen erledigt werden, wird die Beanstandung nicht angenommen und der Käufer hat kein Recht mehr auf Garantie.

Der Käufer kann gemäß Art. 1462 c.c. (it. BGB) zum Zweck der Verzögerung oder Verhinderung der Erfüllung seiner Pflichten keinerlei Einwendungen erheben.

5. TOLERANZEN

Mosaico+ S.r.l. weist ausdrücklich darauf hin, dass die Farbe der Mosaiksteine niemals einheitlich ist. Die Farbmuster sind Richtangaben. Abweichungen im Rahmen der Herstellungstoleranzen der jeweiligen Farbe sind möglich. Auch die Farbanteile der einzelnen Nuancen sind Richtangaben und können Abweichungen erfahren. Der Mix mehrerer verschiedener Farbtöne ist, nach unanfechtbarem Dafürhalten und Urteil des Herstellers, ein ungleichmäßiges, auch vom jeweiligen Farbtyp abhängiges Farbbild und ein typisches Merkmal. Zwischen den einzelnen Materialpartien sind Farbabweichungen innerhalb der Herstellungstoleranzen sowie kleine Einschlüsse und/oder Splitterungen an einzelnen Mosaiksteinen möglich. Die Abmessungen der Mosaiksteine entsprechen richtungsweisend den Nennmaßen zuzüglich der Herstellungstoleranzen. Das gilt ebenfalls für die Fugen in Abhängigkeit vom Istmaß des Mosaiksteins. Einige Kollektionen nehmen aufgrund ihrer Besonderheit durch die unregelmäßigen Mosaiksteine den Charakter eines künstlerischen Mosaiks an. Der Käufer erklärt daher in Kenntnis zu sein, dass die Produkte Abweichungen in der Farbe und/oder

anderen oben genannten Merkmalen sowie etwaige Mikroporositäten aufweisen können und diese Umstände zu akzeptieren.

Der Verkäufer haftet nicht für Farb-/Tonabweichungen von Aufträgen, die zu unterschiedlichen Zeitpunkten erteilt oder abgewickelt werden. Das Mosaik in Holz und der Materialmix mit Mosaiksteinen in Holz müssen unbedingt mit Epoxidmörtel ausgefugt werden, der mindestens 7 (sieben) Tage vor dem Kontakt mit Wasser gereift ist. Sie dürfen nicht auf häufig oder dauerhaft unter Wasser befindlichen Untergründen oder Flächen (z.B. Duschtasche, Badewanne etc.) verlegt werden. Das Material muss bei Transport, auf der Baustelle oder im Lager in unversehrter Originalverpackung vor Regen oder starker Feuchtigkeit geschützt werden.

6. RÜCKGABEN

Es werden keine zurückgesandten Waren angenommen, die von der Direktion in Casalgrande (Reggio Emilia, Italien) nicht schriftlich genehmigt wurden. Der Rücksendeschein muss die Bezugsdaten des bei der Auslieferung ausgestellten Transportdokuments enthalten.

Die Ware ist in der unversehrten Originalverpackung zurückzusenden. Der Versand des zurückgegebenen Materials hat, sofern nicht anderweitig vereinbart, frachtfrei und auf Gefahr des Käufers zu erfolgen. Die Gutschrift in Höhe von 90 % des Warenwertes wird vom Verkäufer nach dem Empfang und der Überprüfung der Ware ausgestellt.

6. Bis

Es ist zu beachten, dass hinsichtlich personalisierten und/oder nach entsprechenden Kundenvorgaben hergestellten und in der Auftragsbestätigung angegebenen Produkten weder Rückgaben noch nach unten korrigierte Änderungen der Liefermenge akzeptiert werden. Die entsprechenden Kosten für derartige Produkte werden dem Kunden insgesamt in Rechnung gestellt, ungeachtet dessen, ob sie abgeholt werden oder nicht.

7. EIGENTUM

Der Käufer wird gemäß Art. 3 dieser Lieferbedingungen mit der Auslieferung der Ware Eigentümer des Materials. Wenn die Ware von einem Transportunternehmen ausgeliefert wird, erfolgt die rechtsübertragende Wirkung in jedem Fall mit der Übergabe an das Transportunternehmen oder an den Spediteur.

8. ZUSTÄNDIGES GERICHT

Jede Streitigkeit bezüglich Bestehen, Gültigkeit, Auslegung, Ausführung u/o Auflösung der Kaufverträge, für welche die vorliegenden allgemeinen Lieferbedingungen angewandt werden, ist durch das italienische Recht reglementiert und wird der italienischen Gerichtsbarkeit zugewiesen. Sie wird insbesondere allein und ausschließlich der Justizbehörde des Gerichts von Milano zugewiesen.

conditions générales de fourniture

1. PAIEMENTS

Les paiements se feront exclusivement au domicile du créancier. Les délais et les modalités de paiement indiqués dans la confirmation de commande et/ou dans la facture s'entendent péremptoires et essentiels. Par conséquent, en cas de non-paiement dans le délai fixé, l'Acheteur devra être mis en demeure comme le prévoit la loi et des intérêts conventionnels seront dus pour le retard dans la mesure annuelle prévue par le décret-loi n°231/02. À la fin de chaque année solaire, Mosaico+ S.r.l. sera autorisée à émettre une note de débit pour les intérêts moratoires éventuels.

S'il a été fixé pour chaque facture un échelonnement des paiements ou bien plusieurs factures avec des échéances successives, le non-paiement, même d'une seule échéance, entraînera la déchéance automatique pour l'Acheteur du bénéfice du délai obtenu ; par conséquent, ce dernier devra effectuer immédiatement le paiement de toute la marchandise reçue. Les frais de règlement (pour émission de reçu bancaire (Ri.Ba.), papier timbré des effets, présentation des effets, etc.) seront à la charge de l'acheteur, sauf accord écrit différent. Le fournisseur pourra suspendre l'exécution de la commande si les conditions patrimoniales de l'Acheteur sont devenues telles de mettre en danger la contre-prestation. Cas de risque évident : ouverture de procédures du concours, mise en liquidation de l'entreprise, existence de protêts, saisies, inscription d'hypothèques judiciaires et volontaires, révocation des concessions de crédit, insolvabilités.

2. EMBALLAGE

Le matériau est livré dans un emballage standard approprié au transport. Pour un emballage différent, il faudra le spécifier par écrit et cet emballage sera débité à prix coûtant.

3. LIVRAISON ET TRANSPORT

La livraison sera faite franco usine aux termes de l'art. 1510 du Code Civil italien et c'est là que l'Acheteur devra retirer sa marchandise. Si, sur demande de l'Acheteur, le fournisseur expédie la marchandise avec un de ses véhicules ou bien par un transporteur ou par un expéditionnaire, cette marchandise s'entendra livrée franco usine et voyagera aux risques et périls de l'Acheteur. Mosaico+ S.r.l. devra s'entendre autorisée à conclure le contrat avec ces personnes dans l'intérêt de l'Acheteur et les frais seront à la charge de ce dernier.

Par conséquent, dans toutes les hypothèses ci-dessus, si la marchandise est volée ou endommagée au cours du transport, la responsabilité du fournisseur ne pourra en aucun cas être mise en cause. Les prix indiqués dans les catalogues s'entendent franco usine de Casalgrande (Reggio Emilia, Italie), T.V.A. non comprise. Les délais de livraison indiqués dans la proposition et/ou dans la confirmation de commande ne sont donnés qu'à titre indicatif et ne sont pas des délais de rigueur. Tout accord différent, pour être valable, devra être écrit.

4. GARANTIE

Le matériau livré est garanti de vices éventuels ou de manque de qualité pendant 12 mois à partir de la livraison. Mosaico+ S.r.l. n'est pas responsable des vices et/ou défauts qui pourraient être imputables aux opérations de pose.

4 Bis. Contestations

Aux termes de l'art. 1495 du Code Civil italien, d'éventuels vices devront être formellement dénoncés par lettre recommandée avec avis de réception dans les 8 (huit) jours de la livraison du matériau ou bien, dans le cas de vices cachés, à partir du moment où ils seront découverts. Si la dénonciation est faite dans les délais ci-dessus, le fournisseur sera tenu exclusivement à remplacer la marchandise défectueuse dans les plus brefs délais et ne répondra en aucun cas de dommages de n'importe quelle nature subis par l'Acheteur.

Toute réclamation pour des dommages éventuels causés à la marchandise pendant le transport, par le transporteur, l'expéditionnaire ou le fournisseur, devra être faite au moment de la livraison, indiquée sur le document de transport et contresignée par le chauffeur du moyen de transport. Les matériaux devront être contrôlés avant la pose en chantier et aucune contestation ne sera acceptée sur du matériau déjà installé. En particulier, le fournisseur ne répondra pas pour les retards de livraison de l'ouvrage par l'Acheteur ou pour des coûts relatifs au montage et au démontage de marchandise défectueuse. Si les procédures exposées ci-dessus ne sont pas suivies dans les modes et les délais fixés, la réclamation ne sera pas acceptée et l'Acheteur n'aura droit à aucune garantie. Aux termes de l'art. 1462 du Code Civil italien, l'Acheteur ne pourra opposer aucune exception afin d'éviter ou de retarder l'accomplissement de ses obligations.

5. TOLÉRANCES

Mosaico+ S.r.l. précise expressément que les tesselles de mosaïque n'ont jamais une couleur uniforme et que les échantillonnages ont un caractère purement indicatif et peuvent subir des variations dans les limites des tolérances de fabrication de la couleur. De même, pour les tonalités, les pourcentages de couleur sont donnés à purement indicatif et ils peuvent subir des variations.

Les différentes tonalités mélangées sont, à la discrétion absolue et exclusive du fabricant, des hétérogénéités qui dépendent aussi de la couleur, et elles constituent l'un de ses traits distinctifs. Mosaico+ S.r.l. précise également que les lots de produits peuvent présenter des variations de tonalités qui restent dans les limites de tolérance de la fabrication, ainsi que des petites inclusions et/ou des ébréchures sur quelques tesselles. Les dimensions des tesselles sont indicatives de la valeur nominale après déduction des tolérances de fabrication. Il en va de même pour les joints qui varient en fonction des dimensions réelles de la tesselle. L'irrégularité des tesselles procure une valeur de mosaïque artistique aux collections qui présentent des caractéristiques particulières. Par conséquent, l'acheteur déclare être au courant que les produits peuvent présenter les

variations susvisées relatives aux tonalités et/ou aux autres signes distinctifs, ainsi que des microporosités éventuelles, et il déclare accepter ces caractéristiques.

La vendeuse ne saurait être tenue pour responsable des variations de couleurs/tonalités pour les commandes passées ou préparées à des moments différents. La mosaïque en bois et les kits avec tesselles en bois doivent être obligatoirement posés avec un mortier époxy qui doit reposer au moins 7 (sept) jours avant tout contact avec l'eau. Ne pas les poser sur des supports ou surfaces en immersion fréquente ou permanente (p. ex. : receveur de douche, baignoire, etc.). Le matériel, conservé dans son emballage d'origine intact, doit être protégé contre la pluie et contre l'excès d'humidité pendant le transport et pendant le stockage sur chantier ou en entrepôt.

6. RETOURS DE MARCHANDISE

Les retours ne sont pas acceptés sauf s'ils ont été expressément autorisés par écrit par la direction de Casalgrande (RE). Le document relatif à ces retours devra reporter les références du document de transport émis au moment de la livraison. La marchandise retournée devra être expédiée dans son emballage d'origine intact, franco de port aux risques de l'Acheteur, sauf toute autre disposition contraire. À la réception de la marchandise et après sa vérification, le fournisseur émettra une note de crédit égale à 90% de la valeur de la marchandise.

6. Bis

Nous aimerions préciser que, pour les produits personnalisés et/ou réalisés d'après votre cahier des charges, les quantités stipulées sur la confirmation de commande ne pourront pas être modifiées par défaut, et les produits ne pourront pas être retournés. Par conséquent, nous vous facturerons le prix de ces produits, même dans le cas où ceux-ci restent dans nos magasins.

7. PROPRIÉTÉ

L'Acheteur acquiert la propriété du matériau à la livraison de la marchandise aux termes de l'art. 3 précédent. Si la marchandise est livrée par un transporteur, l'effet translatif de la propriété aura lieu avec la remise de cette marchandise au transporteur ou à l'expéditionnaire.

8. Tribunal compétent

Tout différend (ou litige) relatif à l'existence, la validité, l'interprétation, l'exécution et/ou la résiliation des contrats de vente pour lesquels on appliquera les présentes conditions générales, sera soumis à la loi italienne et sera du ressort de la juridiction italienne. Ce différend sera de la compétence exclusive du Tribunal de Milano.

Mosaico+ S.r.l. a socio unico

via San Lorenzo 58/59
42013 Casalgrande (RE)
Italy

condiciones generales de suministroo

1. PAGOS

Los pagos deberán efectuarse exclusivamente en el domicilio del acreedor. Los términos y las modalidades de pago indicadas en la confirmación de pedido y/o en la factura deben entenderse como improrrrogables y esenciales. Por lo tanto, en caso de no efectuarse el pago dentro del plazo previsto, el comprador deberá entenderse constituido en mora para todos los efectos legales y serán adeudados intereses convencionales por el retardo en la medida anual prevista por el Decreto Leg. n° 231/02. Al concluirse cada año natural, Mosaico+ S.r.l. estará autorizada para emitir nota de adeudo por los eventuales intereses hasta ese momento devengados. En caso de acordarse para cada venta/factura un pago en cuotas sucesivas o la emisión de varias facturas con vencimientos sucesivos, el incumplimiento en el pago incluso de uno solo de tales vencimientos comportará automáticamente para el comprador la cancelación del beneficio consistente en los plazos concedidos, por lo que éste deberá efectuar inmediatamente el pago de toda la mercancía recibida. Los costes para efectuar el pago (emitir recibos bancarios, sellado fiscal de letras de cambio, presentación de efectos, etc.) quedarán a cargo del comprador salvo acuerdo escrito en contrario. La parte vendedora podrá suspender la ejecución de la prestación si la situación patrimonial del comprador llega a deteriorarse hasta el punto de hacer improbable la consecución de la contraprestación.

Se considerarán como casos de evidente peligro: la apertura de procedimientos concursales, la puesta en liquidación de la empresa, la existencia de protestos, embargos, inscripción de hipotecas judiciales y voluntarias, la revocación de créditos bancarios en cuenta corriente y las insolvencias.

2. EMBALAJE

El material se entrega con embalaje estándar adecuado para el transporte. Otros tipos de embalaje serán cobrados al costo y deberá establecerse por escrito la respectiva confirmación.

3. ENTREGA Y TRANSPORTE

La entrega se efectuará franco fábrica, según lo dispuesto por el art. 1510 c.c. y la mercancía deberá ser retirada por el comprador. En caso de que, bajo pedido del comprador, la parte vendedora se encargue de enviar la mercancía utilizando un vehículo propio o los servicios de un transportista, la mercancía se entenderá igualmente entregada franco establecimiento del vendedor y viajará bajo riesgo y peligro a cargo del comprador. Mosaico+ S.r.l. se entenderá autorizada para contratar los servicios de dichos terceros en el interés del comprador, con costes y gastos a cargo de este último. Por lo tanto, en todas las hipótesis recién indicadas, de verificarse robos y/o daños a la mercancía transportada, la parte vendedora no será considerada como responsable. Los precios indicados en los catálogos se entienden franco establecimiento de Casalgrande (Reggio Emilia, Italia), IVA excluido. Los plazos de entrega indicados en la propuesta y/o en la confirmación de pedido deberán entenderse como genéricos y no fatales. Todo acuerdo en contrario, para ser eficaz, deberá hacerse constar por escrito.

4. GARANTÍA

El material entregado está garantizado contra posibles vicios o faltas de calidad por doce meses a contar de la fecha de entrega. Mosaico+ S.r.l. declinará toda responsabilidad por vicios y/o defectos imputables a las operaciones de colocación.

4 Bis. Cuestionamientos

Según lo dispuesto por el art. 1495 c.c., pena caducidad del derecho, eventuales vicios deberán ser formalmente denunciados mediante carta certificada con aviso de recibo dentro de los 8 (ocho) días sucesivos a la entrega del material y, en el caso de vicios ocultos, a su descubrimiento. En caso de denuncia dentro del plazo señalado, la parte vendedora estará obligada únicamente a sustituir la mercancía defectuosa en el menor tiempo posible y no responderá en ninguna circunstancia por daños de cualquier naturaleza sufridos por el comprador.

El reclamo por eventuales daños sufridos por la mercancía durante el transporte, efectuado tanto por transportista como por el remitente, deberá presentarse en el momento de la entrega, con anotación en el documento de transporte contrafirmada por el conductor del vehículo. En todo caso, los materiales deberán ser controlados antes de su colocación, ya que no se aceptarán cuestionamientos relativos a material ya colocado. En particular, la parte vendedora no responderá por retrasos de entrega de la obra de parte del comprador ni por costes relativos al montaje y al desmontaje de mercancía defectuosa. En caso de no aplicarse los procedimientos de la manera y dentro de los plazos establecidos, el reclamo no será aceptado y el comprador perderá el derecho de garantía. En conformidad con lo dispuesto por el art. 1462 c.c., el comprador no podrá oponer ninguna excepción a fin de evitar o retardar el cumplimiento de sus propias obligaciones.

5. TOLERANCIAS

Mosaico+ S.r.l. especifica explícitamente que el color de las teselas de mosaico nunca es del todo uniforme y que las referencias de los muestrarios son meramente orientativas y susceptibles de variaciones dentro de los márgenes de tolerancia de fabricación de los tintes. También es orientativo y susceptible de variaciones el porcentaje de colores en las coloraciones. La presencia de tonalidades distintas mezcladas es, según el juicio y la valoración inapelables del fabricante, una falta de homogeneidad que en parte se debe al tipo de color y constituye una característica peculiar del mismo. Precisa que entre las diversas partidas de material pueden darse variaciones de tono, dentro de los límites de tolerancia de la producción, así como pequeñas impurezas y/o melladuras en algunas teselas.Las dimensiones de la teselas se refieren a las medidas nominales sin tener en cuenta desviaciones mínimas por defectos admisibles de fabricación. Lo mismo vale para las juntas, que pueden variar en función de la medida real de la tesela. Con la irregularidad de su tesela, algunas colecciones, por su especificidad, adquieren valor de mosaico artístico. Por consiguiente el comprador declara saber que los productos pueden presentar variaciones en el tono y/o en otras

características, como las mencionadas más arriba,

además de posibles microporosidades, y declara asimismo que acepta tales características. La parte vendedora no responderá por variaciones de color ni tonalidad en relación con pedidos cursados o despachados en períodos diferentes. Tanto el mosaico de madera como las mezclas que contengan teselas de madera deberán estucarse necesariamente con masilla epoxídica bien asentada, aplicada al menos 7 (siete) días antes de entrar en contacto con el agua, y no podrán colocarse sobre soportes ni superficies sometidos a inmersión frecuente o constante (como, por ejemplo, platos de ducha, bañeras, etc.). El material, guardado en sus embalajes originales e íntegros, debe preservarse de la lluvia o de la excesiva humedad tanto durante el transporte como a lo largo de su depósito en la obra o el almacén.

6. DEVOLUCIONES

No se aceptarán devoluciones sin la previa y expresa autorización por escrito de la Dirección de Villalunga di Casalgrande (Reggio Emilia, Italia). El documento de devolución deberá contener las referencias del documento de transporte emitido en el momento de la entrega. Los materiales devueltos deberán ser restituidos en su embalaje original íntegro y enviados en porto prepagado a riesgo del comprador, a menos que se haya acordado de otro modo. En el momento de la recepción de la mercancía y tras la revisión de la misma, la vendedora emitirá la correspondiente nota de abono del 90% del valor de la mercancía.

6. Bis

Téngase en cuenta que no se aceptarán devoluciones ni reducciones de cantidad en productos personalizados y/o realizados conforme a características específicas solicitadas por el cliente e indicadas en la confirmación de pedido. Por lo tanto, se cobrará el costo correspondiente, independientemente de si se retiran o no.

7. PROPIEDAD

El comprador adquirirá la propiedad del material con la entrega del mismo, según lo dispuesto por el precedente art. 3. En caso de mercancía entregada por transportista, el efecto trasladador de la propiedad se verificará en todo caso con la entrega al transportista.

8. FORO COMPETENTE

Toda posible controversia relativa a la existencia, validez, interpretación, ejecución y/o resolución de los contratos de compraventa a los que se aplicarán las presentes condiciones generales, se ajustará a lo dispuesto por la ley italiana y quedará sometida a la jurisdicción italiana. En particular, será competente única y exclusivamente la Autoridad Judicial del Foro de Milano.

Mosaico+ S.r.l. a socio unico
via San Lorenzo 58/59
42013 Casalgrande (RE)
Italy

общие условия поставки

1 . ОПЛАТА

Оплата должна производиться исключительно по адресу кредитора. Сроки и условия оплаты, указанные в подтверждении заказа и/или фактуре, являются окончательными и основными. Поэтому, в случае невыполнения оплаты в указанные сроки по закону считается что Покупатель имеет задолженность, на сумму которой начисляются предусмотренные годовые проценты за задержку платежа в соответствии с Указом №231/02. В конце каждого календарного года компания Mosaico+ S.r.l. будет иметь право выписать дебетовое авизо по накопленным на текущий момент процентам. В случае если по каждой фактуре достигнута договоренность об отсрочке оплаты в последующих взносах или дополнительных фактурах с последующим сроком оплаты, несоблюдение даже одного срока оплаты автоматически ведет к потере права Покупателя на предоставленную отсрочку, и в этом случае Покупатель обязан произвести немедленную оплату всего полученного товара. Расходы по выполнению платежа (по выписке банковской квитанции, договорной записке по векселям, предъявлению долговых обязательств и т.д.) будут за счет Покупателя, если не предусмотрено иное письменное соглашение. Продавец может отменить выполнение услуги, если финансовое положение Покупателя таково, что оно подвергает риску получение компенсации за выполненную услугу. Имеются в виду случаи очевидного риска как то: начало конкурсного производства, объявление о несостоятельности предприятия, существование опротестований, наложение ареста на имущество, запись в судебную и добровольную ипотеку, отзыв банковских гарантий, неплатежеспособность.

2 . УПАКОВКА

Материал поставляется в стандартной упаковке, пригодной для транспортировки. Иной тип упаковки будет включен в счет и должен быть согласован письменно в подтверждении заказа.

3 . ПОСТАВКА И ТРАНСПОРТИРОВКА

Поставка выполняется на условиях франко фабрика в соответствии со статьёй 1510 Г.К., и товар должен забираться Покупателем на фабрике. В любом случае, если по заказу Покупателя Продавец обеспечит отправку товара собственным транспортным средством или через транспортное агентство или через экспедитора, товар считается поставленным на условиях франко предприятие и все риски, связанные с транспортировкой, будут за счет Покупателя. Компания Mosaico+ S.r.l. будет считаться уполномоченной на заключение контракта с указанными субъектами в интересах и за счет Покупателя. Поэтому, при всех вышеназванных вариантах, в случае обнаружения краж и/или повреждения перевозимого товара Продавец не считается за это ответственным. Цены, указанные в каталоге, следует понимать как франко предприятие Casalgrande (RE), Н.Д.С. не включен. Сроки поставки, указанные в коммерческом предложении и/или в подтверждении заказа, считаются ориентировочными, а не обязательными. Любое иное соглашение, чтобы оно было действующим, должно быть оформлено в письменном виде.

4. ГАРАНТИЯ

Поставленный материал имеет гарантию от возможного брака или дефектов качества в течение 12 месяцев с момента поставки. Компания Mosaico+ S.r.l. не несет ответственности за брак и/или дефекты качества, появившиеся в результате укладки.

4 BIS . РЕКЛАМАЦИИ

В соответствии со ст. 1495 Г.К. выявленный брак должен быть официально заявлен посредством заказного письма с уведомлением в течение 8 (восьми) дней с момента поставки материала или, в случаях скрытого брака, с момента его обнаружения, при иных условиях происходит отмена гарантии. В случае поступления заявления в указанные сроки Продавец обязан исключительно заменить бракованный товар в кратчайшие сроки, но несет ответственности ни по каким причинам за любой ущерб, понесенный Покупателем. Заявление о рекламации на выявленные повреждения, нанесенные товару во время перевозки транспортом транспортного агентства, экспедитора или отправителя, должно быть оформлено в момент поставки и отмечено в транспортной накладной, подписанной водителем транспортного средства. В любом случае, материал должен быть проконтролирован перед тем как начать его укладку, жалобы на уже уложенный материал не принимаются. В частности, Продавец не несет ответственности за задержки в сдаче работ со стороны Покупателя или за расходы, вызванные укладкой и демонтажом бракованного материала. В случае если вышеописанные процедуры не будут проведены согласно установленным методам и срокам, рекламация не будет принята, а Покупатель теряет право на гарантию. В соответствии со ст. 1462 Г.К. Покупатель не вправе требовать каких-либо исключений с целью избежать или задержать выполнение собственных обязательств.

5 . ДОПУСКИ

Компания Mosaico+ S.r.l. обращает внимание на то, что цвет элементов мозаики никогда не однороден, а ссыла на образцы является лишь только приблизительной и зависящей от изменений, которые могут возникнуть во время приготовления красителя. Аналогично, приблизительными и подлежащими изменениям являются проценты отдельных цветов в цветовых смесях spotie. По неоспоримому мнению и заключению производителя наличие в смеси различных оттенков является отличием, зависящим также от типа цвета, и представляет собой характерную особенность изделия. Компания уточняет, что в разных партиях материала возможны изменения тона, соответствующие предельным производственным допускам, в том числе небольшие включения и/или сколы некоторых элементов. Размеры элементов являются номинальными и могут иметь производственные допуски. Размеры швов также являются приблизительными и зависят от реальных размеров элементов мозаики. Ввиду своей специфичности и благодаря неровностям элементов некоторые коллекции принимают характер художественной мозаики. Ввиду вышесказанного, покупатель заявляет о том, что он ознакомлен с тем, что продукция может

обладать отличиями тона цвета и/или другими

вышеуказанными характеристиками, включая микропористость, и принимает эти особенности. Продавец не несет ответственности за изменения цветов/тона в заказах, сделанных в разное время. Мозаика из дерева и смеси с элементами из дерева должны обязательно заделываться эпоксидными затирками и выдерживаться не менее 7 (семи) дней перед тем, как вступить в контакт с водой. Кроме того, они не должны укладываться на основы или поверхности, которые часто и постоянно погружаются под воду (напр.: душевой поддон, ванна и т.д.). Материал, хранящийся в заводской, ненарушенной упаковке, должен быть защищен от дождя или от чрезмерной влаги, как во время перевозки, так и во время хранения на стройплощадке или на складе.

6 . ВОЗВРАТЫ

Возвраты не принимаются, если они письменно не разрешены дирекцией Casalgrande (RE). Документ возврата должен содержать исходные данные транспортной накладной, оформленной в момент поставки и отмечено в транспортной накладной, подписанной водителем транспортного средства. В момент поставки материал на возврат должен быть упакован в оригинальную неповрежденную упаковку и отправлен с оплатой перевозки под ответственность Покупателя. После получения и проверки возвращенного товара продавец выпустит кредит-ноту, размер которой составит 90% от стоимости товара.

6. БИС

Обращаем внимание на то, что персонализированная продукция, а также изготовленная по вашим спецификациям, указанным в подтверждении заказа, не подлежит возврату, изменениям и уменьшениям заказанных количеств. Поэтому, вне зависимости от вывоза этой продукции, ее оплата будет взиматься в любом случае.

7 . ПРАВО СОБСТВЕННОСТИ

Продавец приобретает право собственности на материал в момент поставки материала в соответствии с выше приведенным параграфом 3. Если товар поставляется перевозчиком переход права собственности в любом случае происходит в момент передачи товара перевозчику или экспедитору.

8 . КОМПЕТЕНТНЫЙ СУД

Любой спор, возникающий в связи с существованием, законностью и сроком действия, интрепретацией, выполнением и/или расторжением контрактов о купле/продаже, к которым будут применимы данные общие условия, будет решаться на основе итальянского законодательства и подлежат итальянской юрисдикции. В частности, он будет передан на рассмотрение исключительно в Судебные Органы города Милан.

Con la stampa di questo catalogo abbiamo cercato di avvicinarci il più possibile alla realtà cromatica delle tessere dei mosaici; i campioni stampati hanno tuttavia valore solamente indicativo.

When printing this catalogue, every effort has been made to reproduce the real colors of the mosaic chips; however, printed samples are guideline only.

Beim Druck dieses Katalogs achteten wir auf eine möglichst farbgetreue Wiedergabe der Mosaiksteine. Die gedruckten Muster sind jedoch nur ein Anhaltspunkt zum Original und deshalb unverbindlich.

Nous avons essayé de rapprocher le plus possible de la réalité la couleur des tesselles sur ce catalogue. Néanmoins, les échantillons imprimés sont donnés à titre purement indicatif.

Al imprimir el presente catálogo hemos tratado de reproducir lo más fielmente posible la realidad cromática de las teselas de los mosaicos; las muestras impresas, sin embargo, tienen un valor meramente orientativo.

Во время печати данного каталога мы попытались как можно точнее воспроизвести реальные цвета элементов мозаики. Тем не менее, напечатанные образцы имеют лишь приблизительное значение.
